Dear Mr. Halverson and Ms. Koo:

**Additional Farm Dwelling Agreement**  
**Applicant(s): Richard A. Halverson & Ann Koo**  
**Owner(s): Richard A. Halverson & Ann Koo**  
**Tax Map Key: 2-9-002:033**

Pursuant to authority conferred to the Planning Director by Chapter 25, Article 5, Division 7, Section 25-5-77 of the Zoning Code and Planning Department Rule 13, Farm Dwellings, we have reviewed your request for an additional farm dwelling on the subject property. Your submittal included the following information:

1. A notarized affidavit that the additional dwelling shall be used for farm-related purposes in the form of the proposed Additional Farm Dwelling Agreement.
2. Name and address of the landowner or lessee, if the latter has a lease on the building site with a term exceeding one year from the date of the farm dwelling agreement.
3. Written authorization of the landowner if the request is filed by the lessee.
4. A farm plan or evidence of the applicant's continual agricultural productivity or farming operation within the County, including an explanation of why this additional farm dwelling is needed in connection with the agricultural productivity or farming operation.

5. In support, evidence of a State of Hawaii Department of Taxation's General Excise (GE) Tax License has also been presented.

Findings:

1. In Chapter 205, Hawaii Revised Statutes, the State Land Use Law does not authorize residential dwellings as a permitted use in the State Land Use Agricultural district unless the dwelling is related to an agricultural activity or is a farm dwelling. **A farm dwelling as defined in Section 205-4.5, Chapter 205, HRS, means a single family dwelling located on and used in connection with a farm, including clusters of single family farm dwellings permitted within agricultural parks developed by the State, or where agricultural activity provides income to the family occupying the dwelling. (emphasis added)**
2. The Farm Plan, GE Tax License (ID number 30106748), and the agreement to use the dwelling for agricultural or farm-related activity on the building site demonstrate that there is agricultural activity and that income from your agricultural activity will be taxed.
3. In addition, the following agencies have submitted their comments as stated below:
  - (a) Department of Water Supply (Memorandum dated August 22, 2000):

“We have reviewed the subject application and have the following comments.

For your information, an existing 1-inch service lateral, which is adequate for only one dwelling at 600 gallons per day, has been paid for to service the subject parcel. To date, an application for service has not been made.

Inasmuch as this application is proposing an additional dwelling, the installation of a separate 5/8-inch meter by the applicant would normally be required in accordance with Department regulations. However, the Department's existing water system facilities cannot support an additional meter for the proposed additional farm dwelling at this time. Extensive improvements and additions, including source, storage, transmission, booster pumps, and distribution facilities must be constructed. Currently, sufficient funding is not available and no time schedule is set.

Ms. Ann Koo

Therefore, the Department has no objections to the proposed application subject to the applicant understanding and accepting the Department cannot provide water service to the proposed additional farm dwelling. Further, should the application be approved, both dwellings must **not** share the existing meter.

Should there be any questions, please contact our Water Resources and Planning Branch at 961-8665.”

(b) Real Property Tax Office (Memorandum dated August 11, 2000):

“Taxes are paid through December 31, 2000.”

(c) Department of Health (Memorandum dated August 9, 2000):

“The Health Department found no environmental health concerns with regulatory implications in the submittals.”

Decision:

In view of the above, your request to construct a second farm dwelling is approved subject to the following conditions:

1. The second farm dwelling shall only be used to provide shelter for persons involved in the agricultural or farm-related activity on the building site.
2. The agreement shall run with the land and apply to all persons who may, now or in the future, use or occupy the additional farm dwelling.
3. All other applicable rules, regulations, and requirements of the Planning Department (including but not limited to the Zoning Code, Chapter 25, Department of Public Works, Department of Water Supply, Fire Department and State Department of Health and other reviewing agencies/divisions listed on the Building Permit Application.
4. In reference to the Department of Water Supply's comments, may we suggest the following:

- (a) Any dwelling not serviced by a County water system should be provided with and maintain a private potable rain-water catchment system with a minimum capacity of 6,000 gallons for domestic consumption or potable uses. This catchment system should adhere to the Department of Public Works, Building Division's "Guidelines for Owners of Rain Catchment Water Systems" as well as the State Department of Health requirements related to water testing and water purifying devices.
- (b) Any farm dwelling should be provided with and maintain a private water supply system with an additional minimum storage capacity of 3,000 gallons for fire fighting and other emergency purposes. The emergency water supply system, including the necessary compatible connection devices and the location of the water storage unit on the property, should meet with the approval of the Hawaii County Fire Department.
