Dear Mr. Michaud:

Additional Farm Dwelling Agreement

Applicant: Cory V. Michaud
Land Owners: Cory V. Michaud and Soles S. Michaud
Tax Map Key: (3) 3-5-004:011

Pursuant to authority conferred to the Planning Director by Chapter 25, Article 5, Division 7, Section 25-5-77 of the Zoning Code and Planning Department Rule 13, Farm Dwellings, we have reviewed your request for an additional farm dwelling on the subject property. Your submittals included the following information:

1. A notarized affidavit that the additional dwelling shall be used for farm-related purposes in the form of the enclosed Additional Farm Dwelling Agreement to be submitted for recordation with the Bureau of Conveyances.
2. Name and address of the landowner(s) or lessee(s), if the latter has a lease on the building site with a term exceeding one year from the date of the farm dwelling agreement.
3. Written authorization of the landowner(s) if the lessee filed the request.
4. A farm plan or evidence of the applicant's continual agricultural productivity or farming operation within the County, including an explanation of why this additional farm dwelling is needed in connection with the agricultural productivity or farming operation. Your farm plan included the following ongoing and proposed income producing agricultural activities:

Exhibit A

(a) Ongoing agricultural activities include the following:

- i. A mixed fruit tree orchard consisting of 35 trees planted on $\frac{3}{4}$ -acre of the subject property;
- ii. A 142 tree lychee orchard planted on $3\frac{1}{2}$ -acres of the subject property;

(b) Proposed agricultural activities include the following:

- i. Planting of approximately 425 fruit trees of mixed variety on an additional 9-acres of the subject property;
- ii. The construction of a greenhouse for the purpose of growing a variety of vegetables and herbs;

5. In support, evidence of a State of Hawaii Department of Taxation's General Excise (GE) Tax License has also been presented.

Findings:

1. In Chapter 205, Hawaii Revised Statutes (HRS), the State Land Use Law does not authorize residential dwellings as a permitted use in the State Land Use Agricultural district unless the dwelling is related to an agricultural activity or is a farm dwelling. A **farm dwelling** as defined in Section 205-4.5, Chapter 205, HRS, **means a single family dwelling located on and used in connection with a farm, including clusters of single family farm dwellings permitted within agricultural parks developed by the State, or where agricultural activity provides income to the family occupying the dwelling.** (emphasis added)
2. The subject lot was created by Grant 8902 prior to June 4, 1976, which, pursuant to HRS §205-4.5(b), defines the first dwelling on the lot as a single-family dwelling.
3. The Farm Plan, GE Tax License (ID number 30122569), and the agreement to use the dwelling for agricultural or farm-related activity on the building site demonstrate that will be income producing agricultural activity and the income will be taxed.

4. In addition, the following agencies have submitted their comments as stated below:

(a) Department of Water Supply (Letter dated October 26, 2001):

“We have reviewed the subject application and have the following information.

The property does not have an existing water service with the Department as the parcel is beyond the service limits of the Department’s existing water system.

Therefore, the Department has no objections to the proposed application subject to the applicant understanding and accepting that the Department cannot provide water service to this parcel.

Should there be any questions, please call our Water Resources and Planning Branch at 961-8070.”

(b) Real Property Tax Office:

No comments were received.

(c) Department of Health (Memorandum dated October 25, 2001):

“The Health Department found no environmental health concerns with regulatory implications in the submittals.”

Decision:

In view of the above, your request to construct a second farm dwelling is approved subject to the following conditions:

1. The additional farm dwelling shall only be used to provide shelter for persons involved in the agricultural or farm-related activity on the building site. Family members who are not engaged in agricultural or farm-related activities are allowed to reside in the farm dwelling.
2. The agreement shall run with the land and apply to all persons who may, now or in the future, use or occupy the additional farm dwelling.

3. All other applicable rules, regulations, and requirements of the Planning Department (including but not limited to the Zoning Code, Chapter 25, Department of Public Works, Department of Water Supply, Fire Department and State Department of Health and other reviewing agencies/divisions listed on the Building Permit Application.
4. Your Additional Farm Dwelling Agreement has been approved based primarily on proposed agricultural activity as summarized previously in this letter. It is required that the First Party (owners and lessees) to the Agreement shall have implemented at least 75% of the proposed farm plan within three (3) years of approval of the building permit for the additional farm dwelling. The Second Party (County of Hawaii Planning Department) of the Agreement may allow time extensions and modifications for good cause shown by First Party.
5. The First Party shall allow the Second Party or its representative to inspect the farm upon reasonable prior notice.
6. This Additional Farm Dwelling Agreement shall be valid for a period of two (2) years from the date of this approval letter to secure a building permit for the additional farm dwelling. Failure to secure a building permit for this additional farm dwelling on or before November 27, 2003 may cause the Director to initiate proceedings to invalidate the AFDA.

In reference to the Department of Water Supply's comment, may we suggest the following?

1. Any dwelling not serviced by a County water system should be provided with and maintain a private potable rain-water catchment system with a minimum capacity of 6,000 gallons for domestic consumption or potable uses. This catchment system should adhere to the Department of Public Works, Building Division's "Guidelines for Owners of Rain Catchment Water Systems" as well as the State Department of Health requirements related to water testing and water purifying devices.
2. Any farm dwelling should be provided with and maintain a private water supply system with an additional minimum storage capacity of 3,000 gallons for fire fighting and other emergency purposes. The emergency water supply system, including the necessary compatible connection devices and the location of the water storage unit on the property, should meet with the approval of the Hawaii County Fire Department.
