December 13, 2007

Mr. Gilbert P. Benevides, Sr.
and Mrs. Marie B. Benevides
280-A Alaloa Road
Hilo, Hawai'i 96720

Dear Mr. and Mrs. Benevides:

SUBJECT: Additional Farm Dwelling Agreement (FDA-07-000193)
Applicants: Gilbert P. Benevides, Sr. and Marie B. Benevides
Land Owners: Gilbert P. Benevides, Sr. and Marie B. Benevides
State Land Use: Agricultural
County Zoning: A-3a
Land Area: 3.0 Acres
Tax Map Key: (3) 2-4-005:143

Pursuant to authority conferred to the Planning Director by Chapter 25, Article 5, Division 7, Section 25-5-77 of the Zoning Code and Planning Department Rule 13, Farm Dwellings, we have reviewed your request for an additional farm dwelling on the subject property. Your submittals included the following information:

1. Names, address and the signatures of the applicants/landowners.
2. A farm plan or evidence of the applicants' continual agricultural productivity or farming operation within the County, including an explanation of why this AFD is needed in connection with the agricultural productivity or farming operation.

Your farm plan included the following ongoing income producing agricultural activities:

- a. Ongoing agricultural activities include the following:

Mr. Gilbert P. Benevides, Sr.
and Mrs. Marie B. Benevides

Page 2

December 13, 2007

- i. The property is dedicated to agricultural use through the Real Property Tax Division;
 - ii. The activity involves chickens (sold for stud services, show, eggs, pets and slaughtered for food) and goats (sold for pets, the milk slaughtered for food);
 - iii. Approximately 7 hours or more per day, 7 days per week are required for running the farm; and
 - iv. Income is about \$16,000 per year with expenses of about \$6,000 per year.
3. Applicant's commitment to the farm plan will be shown in the form of the enclosed Additional Farm Dwelling Agreement affidavit, to be notarized and submitted for recordation with the Bureau of Conveyances, which states that the additional dwelling shall be used for farm-related purposes.

Findings:

1. In Chapter 205, Hawai'i Revised Statutes (HRS), the State Land Use Law does not authorize residential dwellings as a permitted use in the State Land Use Agricultural district unless the dwelling is related to an agricultural activity or is a farm dwelling. A **farm dwelling** as defined in Section 205-4.5, Chapter 205, HRS, **means a single family dwelling located on and used in connection with a farm,** including clusters of single family farm dwellings permitted within agricultural parks developed by the State, **or where agricultural activity provides income to the family occupying the dwelling.** (emphasis added)
2. The subject lot was created by subdivision (SUB 3192) approved on November 21, 1972, which, pursuant to HRS §205-4.5(b), allows the first dwelling on the lot to be a single-family dwelling.
3. The Farm Plan and the agreement to use the dwelling for agricultural or farm-related activity on the building site demonstrate that there is income producing agricultural activity.
4. In addition, the following agencies have submitted their comments as stated below:
 - a. Department of Water Supply (DWS) (Letter dated November 6, 2007):

"We have reviewed the subject application and have the following comments and conditions.

Mr. Gilbert P. Benevides, Sr.
and Mrs. Marie B. Benevides
Page 3
December 13, 2007

Please be informed that an existing 5/8-inch meter services this property and is adequate for only one dwelling unit at an average of 400 gallons per day. Inasmuch as this application is proposing an additional and third dwelling, the installation of a separate 5/8-inch meter would normally be required in accordance with the Department's Rules and Regulations. However, the Department cannot provide an additional meter for the proposed additional. Farm dwelling as the subject parcel does not front on the Department's existing water system facilities.

The Department has no objections to the proposed application, subject to the applicant understanding and accepting that the Department cannot provide service to the proposed additional farm dwelling. Should the application be approved, dwellings shall not share the existing meter, and the water system plumbing between the dwellings shall not be interconnected in any way.

Further, as the applicant indicates that there is existing and proposed agricultural activity within the subject parcel, a reduced pressure type backflow prevention assembly must be installed within five (5) feet of the existing meter on private property. The installation of the backflow prevention assembly must be inspected and approved by the Department before commencement of water service. A copy of the Department's backflow prevention handout will be sent to the applicant to help them understand this requirement.

Should there be any questions, please call Mr. Ryan Quitoriano of our Water Resources and Planning Branch at 961-8070, extension 256."

b. Real Property Tax Office (RPT):

RPT did not comment on this application as of this date.

c. Department of Health (DOH) (Memorandum dated October 31, 2007):

"The use of individual wastewater systems is allowed. The type and number of individual wastewater systems will be determined by the wastewater rules in effect at the time of building permit application.

We recommend that you review all of the Standard Comments on our website: www.state.hi.us/health/environmental/env-planning/landuse/landuse.htm. Any comments specifically applicable to this project should be adhered to."

Mr. Gilbert P. Benevides, Sr.
and Mrs. Marie B. Benevides

Decision:

In view of the above, your request to construct a **third (first AFD) dwelling** (the second dwelling is an Ohana Dwelling Unit) on the property is approved subject to the following conditions:

1. The AFD shall only be used to provide shelter for persons involved in the agricultural or farm-related activity on the building site. Family members who are not engaged in agricultural or farm-related activities are allowed to reside in the farm dwelling.
2. The agreement shall run with the land and apply to all persons who may, now or in the future, use or occupy the additional farm dwelling. The enclosed AFD Agreement must be returned to the Planning Department with the appropriate notarized signatures along with a check made out to the Bureau of Conveyances in the amount of \$25.00 in accordance with the enclosed AFDA Instructions. The Planning Department will not approve a building permit application for the additional dwelling until the AFDA document and all required attachments have been accepted for recordation.
3. The applicant is responsible for any State and Federal tax consequences due to the income produced from the farm activity.
4. In reference to the DWS comment, may we suggest the following:
 - a. Any dwelling not serviced by a County water system should be provided with and maintain a private potable rain catchment system which includes a minimum 6,000 gallons for domestic consumption or potable uses. This catchment system should adhere to the Department of Public Works, Building Division's "Guidelines for Owners of Rain Catchment Water Systems" as well as the State Department of Health requirements related to water testing and water purifying devices.
 - b. Any dwelling on a water catchment system should be provided with and maintain an additional 3,000 gallon water storage capacity for fire fighting and emergency purposes. The emergency water supply system, including the necessary compatible connector system and location of the water storage facility on the property, should meet with the approval of the Hawai'i County Fire Department.

Mr. Gilbert P. Benevides, Sr.
and Mrs. Marie B. Benevides

5. All other applicable rules, regulations, and requirements of the Planning Department (including but not limited to the Zoning Code, Chapter 25), Department of Public Works, Department of Water Supply, Fire Department and State Department of Health and any other reviewing agencies/divisions listed on the Building Permit (BP) Application shall be adhered to.
6. Your AFDA has been approved based on ongoing agricultural activity as summarized previously in this letter.
7. The First Party shall allow the Second Party or its representative to inspect the farm upon reasonable prior notice.
8. This AFDA shall be valid for a period of two (2) years from the date of this approval letter to secure a BP for the additional farm dwelling. Failure to secure a BP for this additional farm dwelling on or before December 14, 2009 may cause the Director to initiate proceedings to invalidate the AFDA.

Should you have any questions, please feel free to contact Jonathan Holmes of this office at 961-8288.

Sincerely,

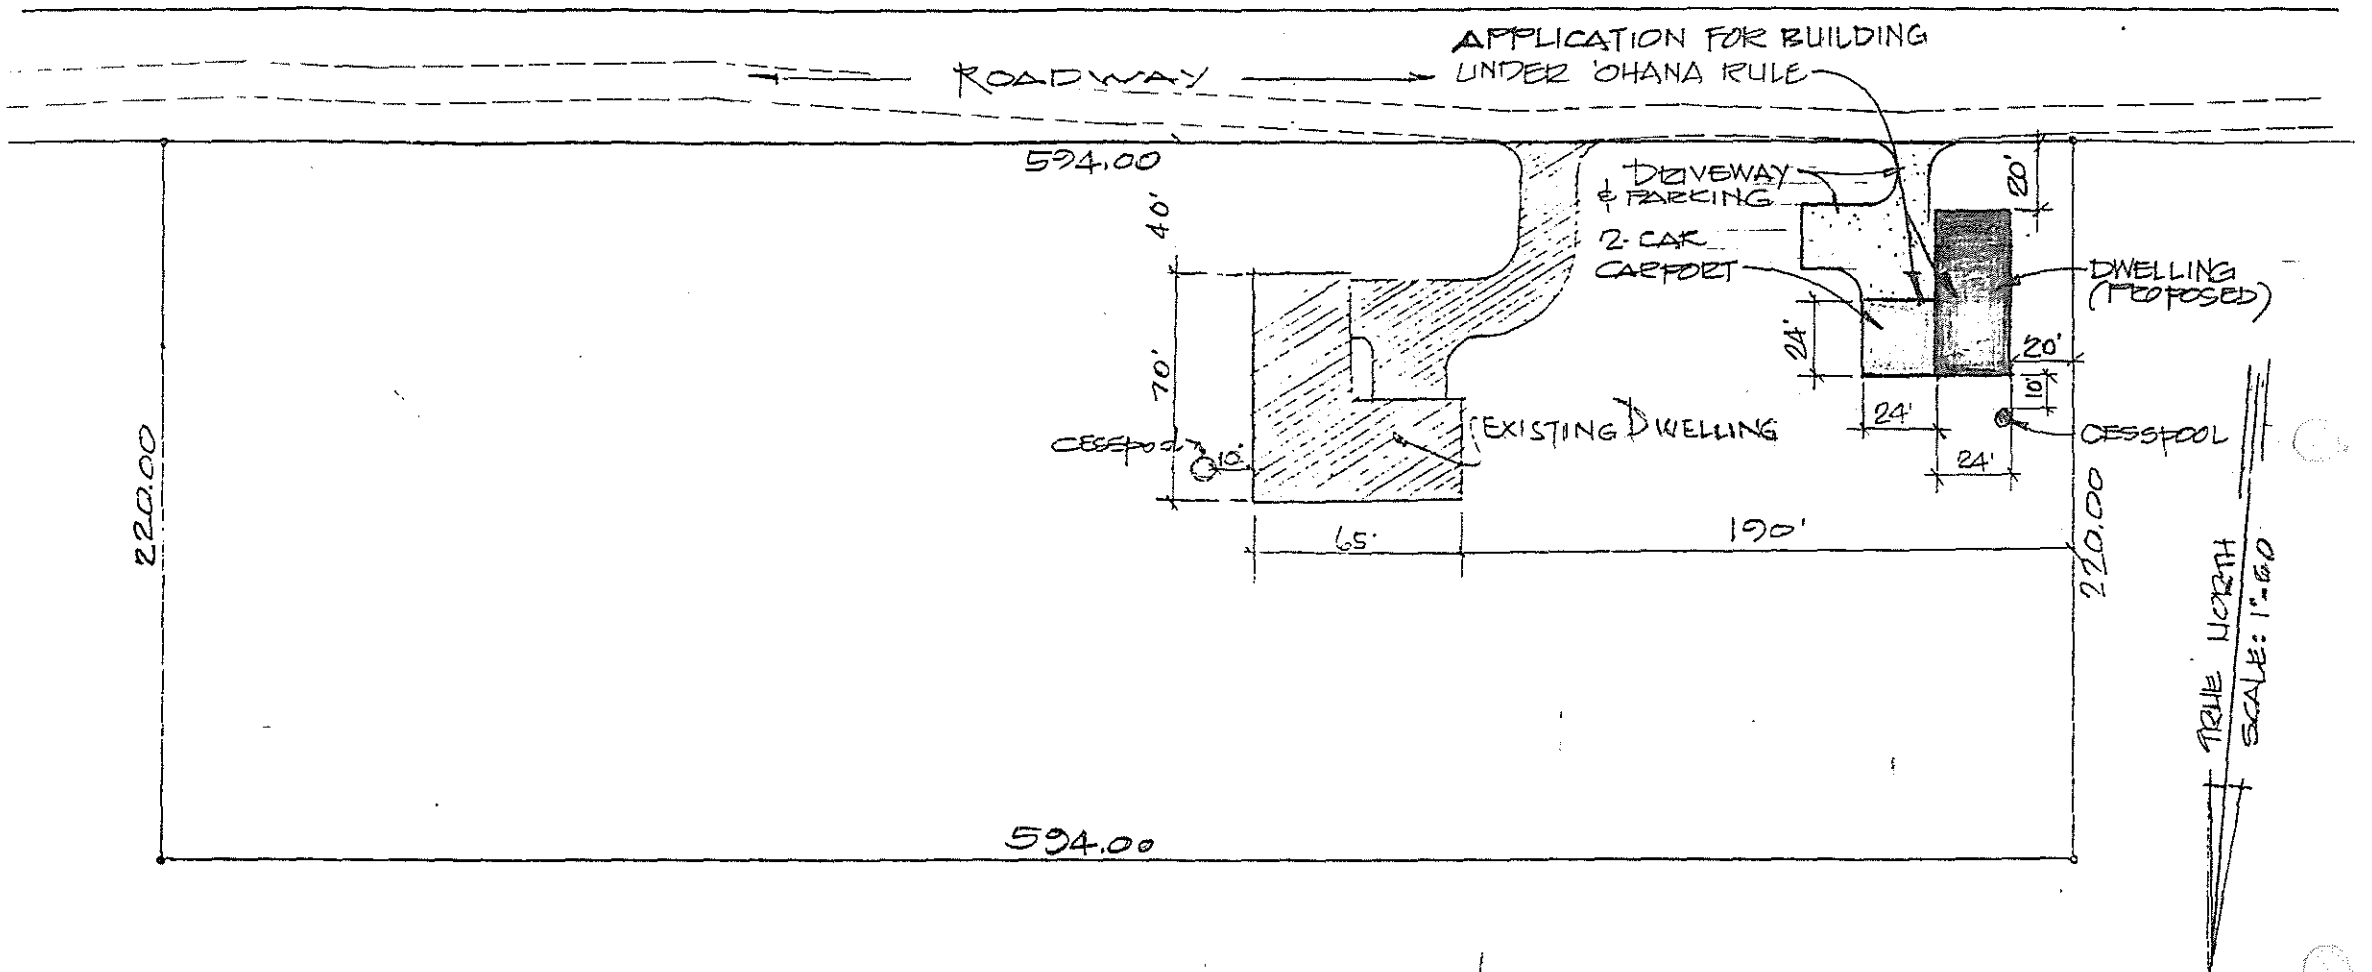

CHRISTOPHER J. YUEN
Planning Director
