July 14, 2010

John Arany  
49 Park Lane Circle  
Richmond Hill, Ontario  
Canada, L4C 6S8

Dear John Arany:

**SUBJECT: Additional Farm Dwelling Agreement (FDA-10-000278)**  
**Applicant: JOHN ARANY**  
**Land Owner: JOHN ARANY, SUSAN ARANY and JOHN ARANY**  
**State Land Use: Agricultural**  
**County Zoning: A-1a (Agricultural, minimum building site of one acre)**  
**Land Area: 16,262 square feet**  
**Tax Map Key: (3) 1-4-031:128**

Pursuant to authority conferred to the Planning Director by Chapter 25, Article 5, Division 7, Section 25-5-77 of the Zoning Code and Planning Department Rule 13, Farm Dwellings, we have reviewed your request for an additional farm dwelling on the subject property. Your submittals included the following information:

1. Names, address and the signatures of the applicants/landowners.
2. A farm plan or evidence of the applicants' continual agricultural productivity or farming operation within the County, including an explanation of why this AFD is needed in connection with the agricultural productivity or farming operation. Your farm plan included the following proposed income producing apiary activities:
  - i. Initially, acquiring and setting up five hives from local sources;
  - ii. Depending on honey flow, double your beehive contingents with splitting colonies within six months;

- iii. Extracting and packaging the honey;
  - iv. Achieving approximately \$22,500 in revenues;
  - v. Planning to expand the apiary within the first several years of operation
  - vi. Approximately 15 hours per week are required for operating the farm.
3. Applicant's commitment to the farm plan will be shown in the form of the enclosed Additional Farm Dwelling Agreement affidavit, to be notarized and submitted for recordation with the Bureau of Conveyances, which states that the additional dwelling shall be used for farm-related purposes.

Findings:

1. In Chapter 205, Hawai'i Revised Statutes (HRS), the State Land Use Law does not authorize residential dwellings as a permitted use in the State Land Use Agricultural district unless the dwelling is related to an agricultural activity or is a farm dwelling. A **farm dwelling** as defined in Section 205-4.5, Chapter 205, HRS, **means a single family dwelling located on and used in connection with a farm, including clusters of single family farm dwellings permitted within agricultural parks developed by the State, or where agricultural activity provides income to the family occupying the dwelling.** (emphasis added)
2. The subject lot was created prior to June 4, 1976 which, pursuant to HRS 205-4.5(b), allows the first dwelling on the lot to be a single-family dwelling.
3. The Farm Plan and the agreement to use the dwelling for agricultural or farm-related activity on the building site demonstrate that there will be income producing agricultural activity.
4. In addition, the following agencies have submitted their comments as stated below:

- a. Department of Water Supply (DWS) memorandum dated July 12, 2010:

"Please be informed that the subject parcel is not within the Department's existing service limits.

Therefore, the Department has no objections to the proposed application, subject to the applicant understanding and accepting that the Department cannot provide service to the proposed additional farm dwelling.

Should there be any questions, please contact Mr. Ryan Quitariano of our Water Resources and Planning Branch at 961-8070, extension 256.”

b. Department of Health (DOH) memorandum dated June 14, 2010:

“A septic system design has been approved by the Health Department to serve a two bedroom dwelling and a three bedroom dwelling.

The proposed honey extracting and packaging facility would need to meet the requirements of Chapter 12, Food Establishment Sanitation, Chapter 29, Food and Food Products, and HRS 328.

We recommend that you review all of the Standard Comments on our website: <http://hawaii.gov/health/environmental/env-planning/landuse/landuse.html>. Any comments specifically applicable to this project should be adhered to.

The same website also features a Healthy Community Design Smart Growth Checklist (Checklist) created by Built Environment Working Group (BEWG) of the Hawaii State Department of Health. The BEWG recommends that state and county planning departments, developers, planners, engineers and other interested parties apply the healthy built environment principles in the Checklist whenever they plan or review new developments or redevelopments projects. We also ask you to share this list with others to increase community awareness on healthy community design.”

Decision:

In view of the above, your request to construct an **Additional Farm Dwelling** on the property is approved subject to the following conditions:

1. The AFD shall only be used to provide shelter for persons involved in the agricultural or farm-related activity on the building site. Family members who are not engaged in agricultural or farm-related activities are allowed to reside in the farm dwelling.
2. The agreement shall run with the land and apply to all persons who may, now or in the future, use or occupy the additional farm dwelling. The enclosed AFD Agreement must be returned to the Planning Department with the appropriate notarized signatures along with a check made out to the Bureau of Conveyances in the amount of \$30.00 in accordance with the enclosed AFDA Instructions. The

Planning Department will not approve a building permit application for the additional dwelling until the AFDA document and all required attachments have been accepted for recordation.

3. All other applicable rules, regulations, and requirements of the Planning Department (including but not limited to the Zoning Code, Chapter 25), Department of Public Works, Department of Water Supply, Fire Department and State Department of Health and any other reviewing agencies/divisions listed on the Building Permit (BP) Application shall be adhered to.
4. The applicant is responsible for any State and Federal tax consequences due to the income produced from the farm activity.
5. Your AFDA has been approved based on proposed agricultural activity as summarized previously in this letter.
6. The First Party shall allow the Second Party or its representative to inspect the farm upon reasonable prior notice.
7. The Department of Water Supply has determined that a County approved water system is not available to support the AFD. An Additional Farm Dwelling that is not served by an approved water system may be permitted to use a water catchment system in an area that receives an annual rainfall of at least eighty (80) inches of rain per year. A 9,000 gallon water catchment system for drinking and fire fighting purposes will be required for the AFD.
8. This AFDA shall be valid for a period of two (2) years from the date of this approval letter to secure a Building Permit for the additional farm dwelling. Failure to secure a BP for this additional farm dwelling on or before July 14, 2012 may cause the Director to initiate proceedings to invalidate the AFDA.

JOHN ARANY, ARANY AND JOHN ARANY
