December 8, 2010

Mr. John Belchez
7183 Crowley Court
San Diego, CA 92119

Dear Mr. Belchez:

SUBJECT: Additional Farm Dwelling Agreement (FDA-10-000283)
Applicant: John Belchez
Land Owner: John Belchez, et al
State Land Use: Agricultural
County Zoning: A-20a
Land Area: 20.085 Acres
Tax Map Key: (3) 9-4-005:004

Pursuant to authority conferred to the Planning Director by Chapter 25, Article 5, Division 7, Section 25-5-77 of the Zoning Code and Planning Department Rule 13, Farm Dwellings, we have reviewed your request for an additional farm dwelling on the subject property. Your submittals included the following information:

1. Names, address and the signatures of the applicants/landowners.
2. A farm plan or evidence of the applicants' continual agricultural productivity or farming operation within the County, including an explanation of why this AFD is needed in connection with the agricultural productivity or farming operation. Your farm plan included the following ongoing and proposed income producing agricultural activities:

Mr. John Belchez
Page 2
December 8, 2010

- i. Propagation of orange, tangerine and avocado trees;
 - ii. The growing of pineapples and orchids;
 - iii. The raising of chickens for eggs and meat;
 - iv. Approximately 17 to 20 hours per week are required for running the farm.
3. Applicant's commitment to the farm plan will be shown in the form of the enclosed Additional Farm Dwelling Agreement affidavit, to be notarized and submitted for recordation with the Bureau of Conveyances, which states that the additional dwelling shall be used for farm-related purposes.

Findings:

1. In Chapter 205, Hawai'i Revised Statutes (HRS), the State Land Use Law does not authorize residential dwellings as a permitted use in the State Land Use Agricultural district unless the dwelling is related to an agricultural activity or is a farm dwelling. A **farm dwelling** as defined in Section 205-4.5, Chapter 205, HRS, **means a single family dwelling located on and used in connection with a farm including clusters of single family farm dwellings permitted within agricultural parks developed by the State, or where agricultural activity provides income to the family occupying the dwelling.**
2. The subject lot was created by subdivision (SUB 09-000864) approved on August 4, 2009, which, pursuant to HRS §205-4.5(b), allows the first dwelling on the lot to be a farm dwelling.
3. The Farm Plan and the agreement to use the dwelling for agricultural or farm-related activity on the building site demonstrate that there is income producing agricultural activity.
4. In addition, the following agencies have submitted their comments as stated below:
 - a. Department of Water Supply: (Memorandum dated December 2, 2010)

"We have reviewed the subject application and have the following comments and conditions.

Mr. John Belchez
Page 3
December 8, 2010

Through Subdivision Application No. SUB 09-000864 (2 lots) and subsequent Variance Application No. VAR 09-009, the existing meter to the original lot of record was designated to Lot 9-A-2, which is now identified as Tax Map Key 9-4-005:058. Since water was not available from our water system to support Lot 9-A-1 within the subdivision (currently identified Tax Map Key 9-4-005:004), the subject parcel was to be provided water through a private rainwater catchment system. Therefore, the Department cannot provide service for any dwellings within the subject parcel.

Should there be any questions, please contact Mr. Finn McCall of our Water Resources and Planning Branch at 961-8070, extension 255.”

b. Department of Health: (Memorandum dated November 24, 2010)

“We recommend that you review all of the Standard Comments on our website: www.hawaii.gov/health/environmental/env-planning/landuse/landuse.htm. Any comments specifically applicable to this project should be adhered to.

The same website also features a Healthy Community Design Smart Growth Checklist (Checklist) created by Built Environment Working Group (BEWG) of the Hawaii State Department of Health. The BEWG recommends that state and county planning departments, developers, planners, engineers and other interested parties apply the healthy built environment principles in the Checklist whenever they plan or review new developments or redevelopments projects. We also ask you to share this list with others to increase community awareness on healthy community design.”

Decision:

In view of the above, your request to construct an **Additional Farm Dwelling** on the property is **approved** subject to the following conditions:

1. The AFD shall only be used to provide shelter for persons involved in the agricultural or farm-related activity on the building site. Family members who are not engaged in agricultural or farm-related activities are allowed to reside in the farm dwelling.
2. The agreement shall run with the land and apply to all persons who may, now or in the future, use or occupy the additional farm dwelling. The enclosed AFD

Mr. John Belchez
Page 4

Agreement must be returned to the Planning Department with the appropriate notarized signatures along with a check made out to the Bureau of Conveyances in the amount of \$30.00 in accordance with the enclosed AFDA Instructions. The Planning Department will not approve a building permit application for the additional dwelling until the AFDA document and all required attachments have been accepted for recordation.

3. All other applicable rules, regulations, and requirements of the Planning Department (including but not limited to the Zoning Code, Chapter 25), Department of Public Works, Department of Water Supply, Fire Department and State Department of Health and any other reviewing agencies/divisions listed on the Building Permit (BP) Application shall be adhered to.
4. The applicant is responsible for any State and Federal tax consequences due to the income produced from the farm activity.
5. Your AFDA has been approved based on ongoing agricultural activity as summarized previously in this letter.
6. The First Party shall allow the Second Party or its representative to inspect the farm upon reasonable prior notice.
7. The Department of Water Supply has determined that a County approved water system is not available to support the AFD. An Additional Farm Dwelling that is not served by an approved water system shall be permitted to use a water catchment system in an area that receives an annual rainfall of at least eighty (80) inches of rain per year. A minimum 9,000 gallon water catchment system for domestic consumption and fire fighting purposes will be required for the AFD.
8. This AFDA shall be valid for a period of two (2) years from the date of this approval letter to secure a Building Permit for the additional farm dwelling. Failure to secure a BP for this additional farm dwelling on or before December 8, 2012 may cause the Director to initiate proceedings to invalidate the AFDA.
