

Revised May 2, 2023

Name: Consolidations

Layer Type: Polygon

Description: Polygon locations of Consolidations for the island of Hawaii.

Source: County of Hawaii, Planning Department; originally compiled on January 2008; updated using ArcGIS Pro; geodatabase.

History: Created in ArcMap Version 9.3.1 by the County of Hawaii, Planning Department, 2005. The polygon data reflects the approximate parcel boundaries at the point in time that the Consolidation had been approved. Using actual hard copy maps within the Final Subdivision folders and scanned “tif.” Images by the Planning Department, Tax Mapping Section.

Attributes:

OBJECTID	(Internal software number)
CON_NO	Consolidation Number
IMAGE_1	Path of Hyperlink to scanned. Images (Intranet)
IMAGE_2	Path of Hyperlink to scanned Images (Internet)

Note: This data layer is intended for planning purposes only and should not be used for boundary interpretations or other spatial analysis beyond the limitations of the data.

The 'Consolidations' map is parcel-specific when attempting to identify its' location. However, users should be aware that subsequent consolidation or subdivision of parcels would change the tax map key numbers. Updates will occur to address this issue as time permits.
