

Revised November 22, 2022

Name: Court Partitions

Layer Type: Polygon

Description: Polygon locations of Court Partitions for the island of Hawaii.

Source: County of Hawaii, Planning Department; originally compiled on April 2011; updated using ArcGIS Pro, geodatabase.

History: Created in ArcMap Version 9.3.1 by the County of Hawaii, Planning Department, 2011. The polygon data illustrates a legal lot of record being partitioned during the 1960's into additional lots for individual ownership in lieu of a Final Subdivision process. A Court Partition document is recorded with the State, Bureau of Conveyances.

Note: This data layer is INCOMPLETE and work will continue to be in progress due to staff research and availability. It is intended for planning purposes only and should not be used for boundary interpretations or other spatial analysis beyond the limitations of the data.

The 'Court Partition' map is parcel-specific when attempting to identify its' location. However, users should be aware that subsequent consolidation or subdivision of parcels would change the tax map key numbers. Updates will occur to address this issue as time permits.
