\* Note: This data layer is intended for planning purposes only and should not be used for boundary interpretations or other spatial analysis beyond the limitations of the data.

The 'DHHL - MOA' layer was intended as an illustration to the requested change of zoning designation based on the 2002 Memorandum of Agreement between the County of Hawaii and the State Department of Hawaiian Home Lands. Not all letters from DHHL may be available at this time.

May 2008. The County of Hawaii, Planning Department made attempts to contact DHHL for assistance in the verification of all requested change of zoning letters submitted to the department. Unfortunately at this time, the Planning Department could not determine that this data layer includes all letters submitted by DHHL.
