

Revised May 9, 2023

Name: Final Subdivisions

Layer Type: Polygon

Description: Polygon locations of Final Subdivisions for the island of Hawaii.

Source: County of Hawaii, Planning Department; originally compiled on July 2007; updated using ArcGIS Pro, geodatabase, on May 2023.

History: Created in ArcMap Version 8.2 by the County of Hawaii, Planning Department, 2005. The polygon data reflects the approximate parcel boundaries at the point in time that the Final Subdivision had been approved. Using actual hard copy maps within the Final Subdivision folders and scanned "tif." Images by the Planning Department, Tax Mapping Section.

Attributes:

OBJECTID	(Internal software number)
SUB_NO	Final Subdivision Number
FP_NO	File Plan Number
LCT_NO	Land Court Number
IMAGE1	Path of Hyperlink to scanned Images (Intranet)
IMAGE2	Path of Hyperlink to scanned Images (Internet)
LUDCODE	Land Use District Code classification
Approved_D	Date approved

Note: This data layer is intended for planning purposes only and should not be used for boundary interpretations or other spatial analysis beyond the limitations of the data.

The 'Final Subdivisions' map is parcel-specific when attempting to identify its' location. However, users should be aware that subsequent subdivision or consolidation of parcels would change the tax map key numbers. Updates will occur to address this issue as time permits.
