Note: This data layer is INCOMPLETE and work will continue to be in progress due to staff research and availability. It is intended for planning purposes only and should not be used for boundary interpretations or other spatial analysis beyond the limitations of the data.

The 'Grant' map is parcel-specific when attempting to identify its' location. However, users should be aware that subsequent consolidation or subdivision of parcels would change the tax map key numbers. Updates will occur to address this issue as time permits.

Periodic updates may occur when there are parcel boundary line adjustments.
