

Revised November 16, 2021

Name: NZC (Non-significant Zoning Change)

Layer Type: Polygon

Description: Location points of Non-significant Zoning Change for the island of Hawaii.

Source: County of Hawaii, Planning Department compiled on May 2009.

History: Created in ArcInfo, version 9.3.1 by the County of Hawaii, Planning Department, 2009. Polygons were created using parcel or zoning data as background based on legal descriptions of the subject area. Currently edited in ArcGIS Pro; geodatabase.

Attributes:	FID	(Internal software number)
	SHAPE	(Type of Date produced, Polygon)
	NZC_NO	Non-significant Zoning Change file number
	TMK	Tax Map Key location
	Image	Hyperlink to Planning Department action letters (upon availability)
	Comments	Various comments
	Status	Approved or Denied

Note: This data layer is intended for planning purposes only and should not be used for boundary interpretations or other spatial analysis beyond the limitations of the data.

The 'NZC' data layer may be parcel-specific when attempting to identify its' location. However, users should be aware that subsequent subdivision of parcels would change the tax map key numbers. Updates will occur to address this issue as time permits.

Please notify the GIS Section for any discrepancy.
