

Revised April 20, 2023

Name: Ohana Permits

Layer Type: Point

Description: Location points of Ohana Dwelling Permits for the island of Hawaii.

Source: County of Hawaii, Planning Department; compiled on November 2009 using ArcMap Version 10.7.1. Updated April 2023 using ArcGIS Pro; geodatabase.

History: Created in ArcMap ver. 9.3.1 by the County of Hawaii, Planning Department, 2009. Point data used in this map were added using the County of Hawaii Parcel Data Layer as a background coverage to identify its' specific location by tax map key description.

Attributes:	FID	(Internal software number)
	SHAPE	(Type of Date produced, Point)
	OHD_NO	Ohana Permit number
	TMK	Tax Map Key location
	OWNER	Owner\Applicant name
	DATE	Action date
	DISTRICT	Name of Judicial District
	STATUS	Latest status (approved, denied, revoked, etc.); updated periodically.
	STATUS	Date of Latest status (updated periodically)
	LINK	Hyperlink to scanned documents upon availability
	COMMENTS	Added comments as necessary

Note: This data layer is intended for planning purposes only and should not be used for boundary interpretations or other spatial analysis beyond the limitations of the data.

The 'Ohana Permits' data layer is parcel-specific when attempting to identify its' location. However, users should be aware that subsequent subdivision of parcels would change the tax map key numbers. Updates will occur to address this issue as time permits.

This data layer currently has over 4,000 records and many files were missing or unavailable during compilation. These records will be added as files become available.

Indication of a point data does not necessarily mean that an Ohana Dwelling physically exists on a parcel. Users are required to verify if an approved Ohana application actually received building permit approvals and that final inspection by the Dept. of Public Works, Building Division was made.
