

Revised November 16, 2021

Name: Subs_20acres

Layer Type: Polygon

Description: Polygon locations of Subs_20acres for the island of Hawaii.

Source: County of Hawaii, Planning Department; originally compiled on April 2011; updated using ArcGIS Pro; geodatabase.

History: Created in ArcMap Version 9.3.1 by the County of Hawaii, Planning Department, 2011. The polygon data illustrates a legal lot of record being subdivided during the 1960's into 20 acre agricultural lots for individual ownership in lieu of a Final Subdivision process. These subdivisions were recorded with the State, Bureau of Conveyances.

Note: This data layer is INCOMPLETE and work continues to be in progress due to staff research and availability. It is intended for planning purposes only and should not be used for boundary interpretations or other spatial analysis beyond the limitations of the data.

The 'Subs 20acres' map is parcel-specific when attempting to identify its' location. However, users should be aware that subsequent consolidation or subdivision of parcels would change the tax map key numbers. Updates will occur to address this issue as time permits.
