

October 15, 1985

Mrs. Barbara Nobriga
P. O. Box 843
Kealahou, HI 96750

Dear Mrs. Nobriga:

Ohana Dwelling Permit (OD 85-97)
Tax Map Key: 7-9-08:6

This is to inform you that the subject application has been reviewed by all of the concerned agencies, and the following are our findings:

1. The subject property is served by an acceptable street.
2. The application can meet with the State Department of Health wastewater treatment and disposal systems requirements.
3. The copy of the document(s) submitted with the ohana dwelling - public facilities form to establish title and exhibits contained therein do not include any deed restriction or covenant to prohibit the construction of the requested ohana dwelling addition. In addition, reference is made to submittals received on October 11, 1985.
4. The submitted site plan denotes two off-street parking stalls on the property.

Based on the above, you are hereby granted approval to permit the construction of an Ohana Dwelling, subject to the following condition(s):

- (a) The building permit for the Ohana Dwelling shall be secured within two (2) years of the date of this Permit. Should you fail to comply with the timetable, this Ohana Dwelling Permit shall be automatically voided.

- (b) Off-street parking space for two vehicles exists and has been designated on the submitted site plan to fulfill the Ohana Dwelling parking requirement. Said space may not be employed for storage or other use unless and until approved alternative parking arrangements are established.
- (c) The site plan and/or construction drawings submitted with the building permit shall denote the required two (2) off-street parking spaces.
- (d) The applicant shall comply with the requirement(s) stipulated by the enclosed copy of the Department of Public Works memorandum dated August 26, 1985.
- (e) The applicant shall conform to State Department of Health standards and regulations specified by their comments dated September 3, 1985, which states:

An individual wastewater system may service a maximum of 800 gallons per day of sewage from each sewage system within a single or multiple dwelling unit complex containing a total of only four (4) bedrooms. A report describing the system is required to be reviewed and accepted by the Department of Health prior to the occupancy of the building.

Should you have any questions regarding the above, please feel free to contact either Masa Onuma or William Yamanoha of my staff at 961-8288. Please bring this Permit with you when you apply for a building permit for the Ohana Dwelling.

Sincerely,

for ALBERT LONO LYMAN
Planning Director
