Mrs. Laura Y. Chock
555 Naniakea Street
Hilo, Hawaii 96720

Dear Mrs. Chock:

Ohana Dwelling Permit (OD 89-283)
Tax Map Key: 2-5-57:6, Lot 4

The subject application has been reviewed by the concerned agencies and notes:

1. The subject tax map key parcel is served by an acceptable street and subject to five (5) foot wide road widening setback to be taken from frontage along the Saddle Road;
2. The subject application can meet with the State Department of Health wastewater treatment and disposal systems requirements;
3. The copy of document(s) received July 27 and August 11, 1989 relating to subject tax map key parcel to establish title and exhibits contained therein do not include any deed restriction or covenant to prohibit construction of requested ohana dwelling; and,
4. The submitted site plan denotes two off-street parking stalls on the property.

In view of the above, by this letter, you are hereby granted permission to construct the Ohana Dwelling subject to the following condition(s):

- (a) The building permit for the Ohana Dwelling shall be secured on or before September 6, 1991. If the applicant and/or owner fails to secure a building permit within two (2) years of the date of this letter, permission to construct the subject ohana dwelling shall be deemed void. A time

SEP 7 1989

extension may be granted for good cause, provided, the permittee and/or owner applies in writing at least forty-five (45) calendar days before the expiration of the two (2) year period.

- (b) Off-street parking space for two vehicles is designated on the submitted site plan to fulfill the off-street parking requirement. The off-street parking spaces may not be employed for storage or other use unless and until approved alternative on-site parking arrangements are established.
- (c) All construction drawings together with approved site plan drawn to scale submitted with the Ohana dwelling building permit application shall denote location and identify required two (2) off-street parking spaces.
- (d1) The Ohana dwelling shall conform to all requirements of codes and statutes pertaining to access and building construction.
- (d2) There shall be a minimum of two feet between the driveway approach and the extension of the property line.
- (d3) Applicant shall secure a driveway permit before constructing a permanent driveway connection.
- (e) The applicant shall conform to State Department of Health standards and regulations and following comment(s) dated August 15, 1989:

"Per Administrative Rule, Title 11, Chapter 62, Wastewater, a single individual wastewater system (IWS) may receive no more than 800 gallons of sewage per day based on 200 gallons per bedroom per day. This limits discharge into a single IWS to four bedrooms. Developments which exceed four bedrooms must install a additional IWS.

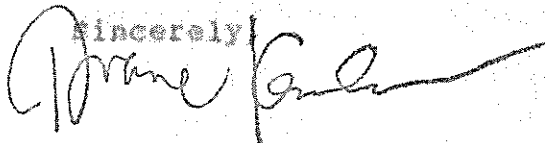

Applicant should be informed that developments in this area have encountered groundwater problems during construction of IWS and that Chapter 62 requires that adequate land space be available to construct a backup disposal system."

- (f) This Ohana Dwelling permit is subject to all other applicable rules, regulations and requirements, including but not limited to those of the Planning Department, Department of Public Works, and State Department of Health.
