- (f) The applicant shall conform to State Department of Health standards and regulations and following comment(s) dated July 18, 1990:

"The attached 'OFFICIAL NOTIFICATION' must be completed by the applicant and submitted to the office of the Chief Sanitarian, Hawaii. Because of the high water table in the proposed project area there is a need to notify the applicant of the groundwater concerns raised with the use of an individual wastewater system for the proposed ohana dwelling.

Per Administrative Rule, Title 11, Chapter 62, 'Wastewater', a single individual wastewater system (IWS) may receive no more than 800 gallons per day of sewage which is generated from a single or multiple unit complex containing a total of no more than four (4) bedrooms. Developments that exceed four (4) bedrooms must install another individual wastewater system.

The minimum setback requirements for an IWS as per Administrative Rules 11-62 must be met.

The Department of Health would like to inform the applicant that wastewater rules are in the process of change and that comments on the project may change accordingly."

- (g) This Ohana Dwelling permit is subject to all other applicable rules, regulations and requirements, including but not limited to those of the Planning Department, Department of Public Works, and State Department of Health.
