This limits discharge into a single IWS to four bedrooms. Developments which exceed four bedrooms must install a additional IWS.

Review of our Kona files do not show a inspection or approval of the existing cesspool indicated on the plot plan. The owner will need to submit a cesspool inspection report or engineered report to the Department of Health for review.

The Department of Health would like to inform the applicant that wastewater rules is in the process of change and that comments made to the project may change accordingly."

- (f) This Ohana Dwelling permit is subject to all other applicable rules, regulations and requirements, including but not limited to those of the Planning Department, Department of Public Works, and State Department of Health.
