"A check of our records shows that a cesspool for a single family dwelling was inspected and approved by our Department of Lot 26 on July 18, 1984. The report does not show the two (2) separate existing structures denoted as "Existing Bedroom" on the attached plot plan.

Per Administrative Rule, Title 11, Chapter 62, 'Wastewater', a single individual wastewater system (IWS) may receive no more than 800 gallons per day of sewage which is generated from a single or multiple unit complex containing a total of no more than four (4) bedrooms. Developments that exceed four (4) bedrooms must install another individual wastewater system.

The minimum setback requirements for an IWS as per Administrative Rules 11-62 must be met.

The Department of Health would like to inform the applicant that wastewater rules are in the process of change and that comments on the project may change accordingly."
