2. The Department of Water Supply (DWS) (memorandum dated January 4, 2001):

“We have reviewed the subject application and have the following comments:

For your information, an existing 5/8-inch meter services this property and is adequate for only one dwelling at 600 gallons per day. This application is proposing an additional detached dwelling, so the installation of a separate 5/8-inch meter by the applicant is required in accordance with Department regulations. Water is available from the 8-inch waterline in Hualalai Road, which fronts the subject parcel.

Therefore, the Department has no objections to the proposed application subject to the applicant understanding and accepting the following conditions:

1. Installation, by the Department of Water Supply, of a second 1-inch Type “A” service lateral to service a 5/8-inch meter, which shall be restricted to a maximum daily flow of 600 gallons as the existing service is.
2. Remittance of the following charges, which are subject to change, to our Customer Service Section:

a. Facilities Charge (One 2 <sup>nd</sup> service at \$3,375.00 each)	\$3,375.00
b. Capital Assessment Fee (One 2 <sup>nd</sup> service in N. Kona water system at \$500.00 each)	500.00
c. Service Lateral Installation Charge (Install one meter on Hualalai Road, a County road) <u>+1,200.00</u>	

**Total (Subject to Change)      \$5,075.00**

Should there be any questions, please contact our Water Resources and Planning Branch at 961-8665.”
