Mr. Charles S. Gonzales
629 Haihai Street
Hilo, Hawaii 96720

Dear Mr. Gonzales:

Ohana Dwelling Unit Permit Application (2005-0043)

Applicant(s): Charles S. Gonzales

Land Owner(s): Charles S. Gonzales

Proposal: Construct An Attached Ohana Dwelling Unit

Tax Map Key: (3) 2-4-040:034

The subject Application for an Ohana Dwelling Unit Permit was reviewed by the required agencies and their respective comments are as follows:

1. The Department of Public Works (DPW) (Memorandum dated June 13, 2005):

“No Comments.”

2. The Department of Water Supply (DWS) (Memorandum dated June 6, 2005):

“We have reviewed the subject application and have the following comments and conditions.

For your information, an existing 5/8-inch meter services this property and is adequate for only one dwelling unit at an average day of 400 gallons per day, or a maximum of 600 gallons per day. Therefore, a second 5/8-inch meter should be installed. Water is available from the 8-inch waterline in Haihai Street, which fronts the subject parcel.

Hawai'i County is an equal opportunity provider and employer.

JUL 06 2005

Therefore, the Department has no objection to the proposed application subject to the applicant understanding and accepting the following conditions:

1. Installation, by the Department of Water Supply, of a second 1-inch lateral to service a 5/8-inch meter, which shall be restricted to a maximum daily flow of 600 gallons.
 2. Remittance of the following charges, which are subject to change, to our Customer Service Section prior to issuance of building permit:
 - a. Facilities Charge
(One 2nd Service at \$5,500.00 each) \$5,500.00
 - b. Service Lateral Installation Charge
(Install one meter on Kekaulani Street, a County road) 2,600.00
- Total (Subject to change) \$8,100.00**

Should there be any questions, please call Ms. Shari Komata of our Water Resources and Planning Branch at 961-8070, extension 252.”

3. The State of Hawaii Department of Health (DOH-HILO) (Memorandum dated June 22, 2005):

“State wastewater rules no longer allows the existing cesspool to serve two dwellings.

EPA has a Large Capacity Cesspool (LCC) rule which requires all large capacity cesspools to be removed from service by April 5, 2005. If two (2) dwellings are connected to an existing cesspool, EPA will consider the cesspool as a large capacity cesspool regardless of the total number of Bedrooms. Even if the total number of bedrooms were reduced to five (5) or less, the existing cesspool will still be considered as a large capacity cesspool by the EPA. (A septic system designed for five (5) bedrooms would be allowed under both State and Federal rules.)

4. The Hawaii County Fire Department (HFD) (Memorandum dated June 6, 2005):

“We have no comments to offer at this time in reference to the above-mentioned Ohana dwelling permit application.”
