The subject Application for an Ohana Dwelling Unit Permit was reviewed by the required agencies and their respective comments are as follows:

1. The Department of Public Works (DPW): (memorandum dated March 7, 2007):

“We have reviewed the subject application and have the following comments to offer.

1. Driveway access from Kilauea Avenue to the proposed ohana dwelling units shall comply with Chapter 22, County Streets, of the Hawai'i County Code (HCC).
2. Earthwork/grading of the site shall conform to Chapter 10, Erosion and Sediment Control, of the Hawai'i County Code (HCC). Any additional runoff generated by the proposed ohana dwelling units shall be disposed within the property and shall not be discharged onto adjacent properties or roadways.

2. The Department of Water Supply (DWS) (memorandum dated March 8, 2007):

“We have reviewed the subject application and have the following comments and conditions.

Please be informed that the subject parcel is currently served by a 5/8-inch meter, which is adequate for only one dwelling at an average daily use of 400 gallons. Inasmuch as this application is proposing an additional dwelling, the installation of a separate 5/8-inch meter will be required. Water can be made available from the Department’s existing 10-inch waterline within Kilauea Avenue, fronting the subject parcel.

Therefore, the Department has no objection to the proposed application, subject to the applicant understanding and accepting the following conditions:

1. Installation, by the Department of Water Supply, of a second 1-inch service lateral to service a 5/8-inch meter, which shall be restricted to a maximum daily flow of 600 gallons.
2. Remittance of the following charges, which are subject to change, to our Customer Service Section:

FACILITIES CHARGE (FC):

2 <sup>nd</sup> service to the parcel	\$5,500.00
---------------------------------------	------------

SERVICE LATERAL INSTALLATION CHARGE:

<u>Install one meter on Kilauea Avenue, a County road</u>	<u>2,600.00</u>
<b>Total (Subject to Change)</b>	<b>\$8,100.00</b>

Should there be any questions, please contact Mr. Ryan Quitariano of our Water Resources and Planning Branch at 961-8070, extension 256.”

3. The State of Hawaii Department of Health (DOH-HILO) (memorandum dated March 19, 2007):

“We recommend that you review all of the Standard Comments on our website: [www.state.hi.us/health/environmental/env-planning/landuse/landuse.html](http://www.state.hi.us/health/environmental/env-planning/landuse/landuse.html). Any comments specifically applicable to this project should be adhered to.

This lot is allowed only one sewage disposal system (10,000 sq.ft. per septic system). Two disposal systems require a minimum of 20,000 sq.ft. lot size. A septic system can serve a maximum of 5 bedrooms. Unless the number of bedroom is reduced to 5 bedrooms, the Health Department does not concur with the ohana dwelling.”

We note the following document that accompanied your application. The copy of the recorded Warranty Deed of **Mr. and Mrs. Kaimi Walter Chung**, dated May 11, 2005, included with the Ohana Dwelling application showing property ownership and listing no restrictive Covenants, Conditions or Restrictions noted regarding ohana or second dwellings being placed on the property.

In view of the above, by this letter, you are hereby **granted** permission to construct an attached single-family Ohana Dwelling Unit subject to the following conditions:

4. Building Permit: **The applicant is required to secure a building permit from the Department of Public Works, Building Division, for the construction of the Ohana Dwelling Unit on or before April 6, 2008.**

Please bring or attach a copy of this Permit to assist the reviewing agencies in understanding and expediting the review and processing of the building construction plans and building permit application for the additional building improvements necessary to establish the Ohana Dwelling Unit on the subject parcel.

- a) A one time 30-day time extension to obtain the building permit may be granted by the Planning Director. A written request for a time extension shall be filed with the Planning Director not less than forty-five (45) days prior to the expiration date of the Ohana Dwelling Unit permit. The Planning Director shall render a decision on the request for a time extension prior to the expiration date of the permit.

- b) The applicant shall not be able to obtain further extensions beyond the initial 30-day time extension. 6. This Ohana Dwelling permit is subject to all other applicable rules, regulations and requirements of the Planning Department, Department of Public Works, Fire Department and State Department of Health and other reviewing agencies/divisions listed on the Building Permit Application.
