Applicant(s): Don B. and Relda Nunes
Land Owner(s): Don B. and Relda Nunes
Proposal: Construct An Attached Ohana Dwelling Unit
Tax Map Key: (3) 2-5-007:023

The subject Application for an Ohana Dwelling Unit Permit was reviewed by the required agencies and their respective comments are as follows:

1. The Department of Public Works (DPW):

As of this date, no comments have been received from DPW.

2. The Department of Water Supply (DWS) (memorandum dated October 29, 2009):

“We have reviewed the subject application and have the following comments and conditions.

Please be informed that the subject parcel is currently served by a 5/8-inch meter, which is adequate for only one dwelling at an average daily usage of 400 gallons. Inasmuch as this application is proposing an additional dwelling, the installation of a separate 5/8-inch meter will be required. Water can be made available from the Department's existing 6-inch waterline within Ikena Place, fronting the subject parcel.

Therefore, the Department has no objections to the proposed application, subject to the applicant understanding and accepting the following conditions:

1. Installation by the Department of Water Supply, of a second 1-inch service lateral to service a 5/8-inch meter, which shall be restricted to a maximum daily flow of 600 gallons.
2. Remittance of the following charges, which are subject to change, to our Customer Service Section:

FACILITIES CHARGE (FC):

2 nd service to the parcel	\$5,500.00
---------------------------------------	------------

SERVICE LATERAL INSTALLATION CHARGE:

<u>Install one meter on Ikena Place, a County road</u>	<u>\$2,600.00</u>

Shall there be any questions, please contact Mr. Ryan Quitoriano of our Water Resources and Planning Branch at 961-8070, extension 256.”

3. The State of Hawaii Department of Health (DOH-HILO) (memorandum received November 10, 2009):

“Original building permit approved by the Health Department was for a 3 bedroom dwelling. Since the Ohana is for 1 bedroom, there will be 4 bedrooms on the septic system which was designed for 3 bedrooms.

We recommend that you review all of the Standard Comments on our website: <http://hawaii.gov/health/environmental/env-planning/landuse/landuse.html> Any comments specifically applicable to this project should be adhered to.

The same website also features a Healthy Community Design Smart Growth Checklist (Checklist) created by Built Environment Working Group (BEWG) of the Hawaii State Department of Health. The BEWG recommends that state and county planning departments, developers, planners, engineers and other interested parties apply the healthy built environment principles in the Checklist whenever they plan or review new developments or redevelopments

projects. We also ask you to share this list with others to increase community awareness on healthy community design.”
