Dear Chock Family Partners:

Subject: Ohana Dwelling Unit Permit Application (OHD-11-000139)
Applicant(s): CHOCK FAMILY PARTNERS
Land Owner(s): LAURA Y. CHOCK TRUST
Proposal: Construct a Detached Ohana Dwelling Unit
Tax Map Key: (3) 2-4-009:050

The subject Application for an Ohana Dwelling Unit Permit was reviewed by the required agencies and their respective comments are as follows:

1. The Department of Public Works (DPW): (memorandum dated June 1, 2011)

"No Comments."

2. The Department of Water Supply (DWS) (memorandum dated June 6, 2011):

"We have reviewed the subject application and have the following comments and conditions:

Please be informed that the subject parcel is currently served by a 5/8-inch meter, which is adequate for only one dwelling at an average daily usage of 400 gallons. Inasmuch as this application is proposing an additional dwelling, the installation of a separate 5/8-inch meter will be required. Water can be made available from the Department's existing 6-inch waterline within Kehaulani Street, fronting the subject parcel.

Therefore, the Department has no objections to the proposed application, subject to the applicant understanding and accepting the following conditions:

1. Installation by the Department of Water Supply, of a second 1-inch lateral to service a 5/8-inch meter, which shall be restricted to a maximum daily flow of 600 gallons.
2. Remittance of the following charges, which are subject to change, to our Customer Service Section:

FACILITIES CHARGE (FC):

2 nd service to the parcel	\$5,500.00
---------------------------------------	------------

SERVICE LATERAL INSTALLATION CHARGE:

<u>Install one meter on Kehaulani Street, a County road</u>	<u>\$3,000.00</u>
---	-------------------

Total (Subject to change)	\$8,500.00
----------------------------------	-------------------

Should there be any questions, please call Mr. Ryan Quitariano of our Water Resources and Planning Branch at 961-8070, extension 256.”

3. The State of Hawai‘i Department of Health (DOH-HILO) (memorandum dated May 9, 2011):

“Show the existing cesspool on the plot plan. Only one disposal system is allowed on the property with 14,034 square feet. A cesspool can only serve one dwelling. A Septic system can serve two (2) dwellings with no more than a total of five (5) bedrooms.”

On July 7, 2011, Jerry Nunogawa (DOH-HILO) confirmed that the cesspool drawings submitted by Atlas Engineering, showing the location of the existing cesspool was sufficient. The remaining comments provided in their May 9, 2011 still stand.
