October 24, 1996

Mr. Klaus Conventz  
P.O. Box 2308  
Kailua-Kona, Hawaii 96745

Dear Mr. Conventz:

Variance Application WH(VAR 96-59)  
Variance No. 786  
Applicant: KOZO YANAGITA, ETAL  
Variance from the Minimum SIDE YARD Requirements  
Tax Map Key: 7-7-020: 038

After reviewing your application and the information submitted, the Planning Director certifies the approval of your variance request to allow an EXISTING TWO STORY SINGLE FAMILY DWELLING with a 9.5 foot side yard in lieu of the minimum 10 foot side yard as required by Chapter 25, Article 4, Section 25-124 (a)(2)(B).

The subject property is located in Kalani Sunset Subdivision, Lot 38 at Holualoa 3rd, North Kona, TMK: 7-7-020: 038.

The Planning Director has concluded that the variance request from the minimum side yard requirement should be approved based on the following findings:

SPECIAL AND UNUSUAL CIRCUMSTANCES

1. The subject property consists of 10,000 square feet of land area.
2. The subject single family dwelling was issued Building Permit No. 915261 on March 5, 1991 and closed on November 19, 1991.

3. A survey map prepared by Wes Thomas Associates on August 20, 1996, shows the EXISTING TWO STORY SINGLE FAMILY DWELLING with 9.5 feet side yard in lieu of the required 10 feet side yard. As such, the subject dwelling encroaches by 6 inches into the required 10 feet side yard.
4. The homeowners at that time, received all of the necessary Department of Public Works, Building Division approvals for dwelling.
5. When the plans were approved by the Planning Department, the plans would have had to show that all minimum required setbacks were going to be adhere to for the proposed dwelling in 1991.
6. There appears to have been a construction staking error occurred in 1991 when the dwelling was constructed in the siting of the structure on the property. There also appears that a very minor siting error was done at the time of construction with the encroachments. No other evidence has been found to show otherwise.
7. It has been over 5 years since the construction of the existing dwelling which was approved by the County and the applicant is trying to resolve a situation which they had no control over and has honestly conducted a certified survey to ensure to disclosure of all facts concerning the dwelling.
8. The variance application was filed with the Planning Department on August 29, 1996.

Therefore, considering the foregoing facts, the Planning Director has determined that there are special or unusual circumstances applying to the subject property which exist either to a degree which deprives the owner or applicant of substantial property rights that would otherwise be available or to a degree which obviously interferes with the best use or manner of development of the subject property.

#### ALTERNATIVES

1. A survey map prepared by Wes Thomas and Associates on August 20, 1996, shows the EXISTING TWO STORY SINGLE FAMILY DWELLING with 9.5 feet side yard, in lieu of the required 10 feet side yard. As such, the subject dwelling encroaches into the side yard by 6 inches.
2. The applicant on their own volition are honestly trying to resolve this long standing problem which was not created by them. The investigation of this particular matter has

Mr. Klaus Conventz  
Page 3  
October 24, 1996

not shown any deliberate or intentional grounds in allowing the encroachments to occur.

3. Any architectural alterations or design changes to the dwelling to conform with the minimum setbacks would create undue and excessive hardships of the applicant when other more reasonable options are available.

Based on the above cited considerations, there are no reasonable available solutions without excessive demands placed on the applicant when a more reasonable alternative is available by the granting of this variance application.

#### INTENT AND PURPOSE

The intent and purpose of requiring buildings setbacks within a subdivision is to assure that adequate air and light circulation is available between structures and property lines. The existing dwelling on the subject property is presently into the side yard by 9.5 feet in lieu of the required 10 feet side yard. As such, the subject dwelling encroaches into the side yard by 6 inches. This encroachment into the side yard is minor but are not visually perceptible that it will diminish the ability for adequate light, air and open space. Therefore, while the Zoning Code requires a minimum 10 feet side yard, in this particular case, the encroachment is minor that will not visually or physically impact or be adverse to any adjacent properties or development with the granting of this variance. The rest of the existing dwelling complies with the minimum yard requirements of the Zoning Code.

There were no objections from any of the participating government agencies or any surrounding property owners.

Based on the foregoing findings, this variance request would be consistent with the general purpose of the zoning district, the intent and purpose of the Zoning Code and Subdivision Codes and the County General Plan; will not be materially detrimental to the public's welfare; and will not cause substantial adverse impact to the areas character and to adjoining properties.

This variance request is approved, subject to the following conditions:

1. The applicant, its assigns or successors, shall be responsible for complying with all stated conditions of approval.
2. The approval of this variance shall be included in the conveyance document for the subject property and a copy of the recorded conveyance document shall be submitted to

Mr. Klaus Conventz  
Page 4  
October 24, 1996

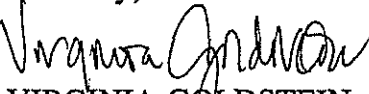

the Planning Department within a year from the effective date of approval of this variance.

3. The CRM wall shall be removed or permitted by the Department of Public Works.
4. All other applicable State and County rules and regulations shall be complied with.

Should any of the foregoing conditions not be complied with, the Planning Director may proceed to declare this Variance Permit null and void.

Should you have any questions, please feel free to contact Royden Yamasato of this department.

Sincerely,

  
VIRGINIA GOLDSTEIN  
Planning Director
