Mr. Klaus Conventz
P.O. Box 2308
Kailua-Kona, Hawaii 96745

Dear Mr. Conventz:

Variance Application WH(VAR 96-74)
Variance No. 799
Applicant: ROBERT E. AND SALLY BLOOMGARDEN
Variance from Minimum SIDE YARD and OPEN SPACE Requirements
Tax Map Key: 6-9-004: 014

After reviewing your application and the information submitted, the Planning Director certifies the approval of your variance request to allow an EXISTING TWO STORY SINGLE FAMILY DWELLING with a 9.8 feet side yard in lieu of the minimum 10 feet side yard and to allow an EXISTING ONE STORY GUEST HOUSE with a 9.5 feet side yard in lieu of the minimum 10 feet side yard and a 3.7 feet open space in lieu of the minimum 5 feet open space, as required by Chapter 25, Article 4, Section 25-4-44 (a) and Chapter 25, Article 5, Section 25-5-7 (a)(2)(B).

The subject property is located at Puako Beach Lots, Lot 56, at Lalamilo, Waimea, South Kohala, Tax Map Key: 6-9-004: 014.

The Planning Director has concluded that the variance request from the minimum front yard, side yard and open space requirements should be approved based on the following findings:

SPECIAL AND UNUSUAL CIRCUMSTANCES

The subject property consists of 14,000 square feet of land area.

1. The subject single family dwelling was issued the following building permits:
 - a. Building Permit No. 860577 in 1986 for a guest house.

00270

JAN 10 1997

Mr. Klaus Conventz

Page 2

January 6, 1997

- b. Building Permit No. 901182 in 1990 for a two story single family dwelling.
2. A survey map prepared by Wes Thomas Associates on November 27, 1996, shows the EXISTING TWO STORY SINGLE FAMILY DWELLING with 9.8 feet side yard in lieu of the required 10 feet side yard. As such, the subject dwelling encroaches by 2 and 3/8 inches into the required 10 feet side yard.
3. A survey map shows the EXISTING ONE STORY GUEST HOUSE with 9.5 feet side yard in lieu of the required 10 feet side yard. As such, the subject dwelling encroaches by 6 inches into the required 10 feet side yard.
4. The survey also indicates an EXISTING ONE STORY GUEST HOUSE with a 3.7 feet open space in lieu of the minimum 5 feet front open space. As such, the guest house encroaches by 1 foot 3 and 5/8 inches into the required 5 front feet open space.
5. The homeowners at that time, received all of the necessary Department of Public Works, Building Division approvals for dwelling.
6. When the plans were approved by the Planning Department, the plans would have had to show that all minimum required setbacks were going to be adhere to for the proposed dwelling in 1986 and 1990.
7. There appears to have been a construction staking error occurred in 1986 and 1990 when the dwellings were constructed in the siting of the structure on the property. There also appears that a very minor siting error was done at the time of construction with the encroachments. No other evidence has been found to show otherwise.
8. It has been over 10 years since the construction of the existing dwellings which was approved by the County and the petitioner is trying to resolve a situation which they had no control over and has honestly conducted a certified survey to ensure to disclosure of all facts concerning the dwelling.
9. The variance application was filed with the Planning Department on December 2, 1996.

Therefore, considering the foregoing facts, the Planning Director has determined that there are special or unusual circumstances applying to the subject property which exist either to a degree which deprives the owner or applicant of substantial property rights that would otherwise be available or to a degree which obviously interferes with the best use or manner of development of the subject property.

ALTERNATIVES

10. The applicant on their own volition are honestly trying to resolve this long standing problem which was not created by the applicant. The investigation of this particular matter has not shown any deliberate or intentional grounds in allowing the encroachments to occur.
11. Any architectural alterations or design changes to the dwelling to conform with the minimum setbacks would create undue and excessive hardships of the applicant when other more reasonable options are available.

Based on the above cited considerations, there are no reasonable available solutions without excessive demands placed on the applicant when a more reasonable alternative is available by the granting of this variance application.

INTENT AND PURPOSE

The intent and purpose of requiring buildings setbacks within a subdivision is to assure that adequate air and light circulation is available between structures and property lines. The existing dwelling on the subject property is presently into the side yard by 2 and 3/8 inches. The existing guest house encroaches 6 inches into the side yard and 1 foot 3 and 5/8 inches into the open space. These encroachments into the side yard and open space are minor but are not visually perceptible that it will diminish the ability for adequate light, air and open space. Therefore, while the Zoning Code requires a minimum 10 feet side yard and 5 feet open space in this particular case, the encroachments are minor that will not visually or physically impact or be adverse to any adjacent properties or development with the granting of this variance. The rest of the existing dwelling complies with the minimum yard requirements of the Zoning Code.

There were no objections from any of the participating government agencies or any surrounding property owners. One letter was received from Leon A. Therena dated December 15, 1996 which recommends that this application be approved.

Based on the foregoing findings, this variance request would be consistent with the general purpose of the zoning district, the intent and purpose of the Zoning Code and Subdivision Codes and the County General Plan; will not be materially detrimental to the public's welfare; and will not cause substantial adverse impact to the areas character and to adjoining properties.

This variance request is approved, subject to the following conditions:

Mr. Klaus Conventz

Page 4

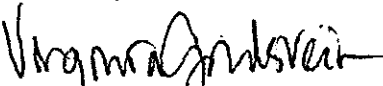

January 6, 1997

1. The applicant, its assigns or successors, shall be responsible for complying with all stated conditions of approval.
2. The approval of this variance shall be included in the conveyance document for the subject property and a copy of the recorded conveyance document shall be submitted to the Planning Department within a year from the effective date of approval of this variance.
3. All encroachments within the County Right-of-way must be removed or permitted.
4. All buildings, pools, sheds, fences, walls etc. shall be constructed in conformance with Chapter 27, of the Hawaii County Code.
5. Comply with all the requirements of the Housing Code.
6. All other applicable State and County rules and regulations shall be complied with.

Should any of the foregoing conditions not be complied with, the Planning Director may proceed to declare this Variance Permit null and void.

Should you have any questions, please feel free to contact Royden Yamasato of this department.

Sincerely,

VIRGINIA GOLDSTEIN
Planning Director
