Dear Mr. Conventz:

Variance Application WH(VAR 97-35)
Variance No. 840
Applicant: KLAUS CONVENTZ
Owner: RICHARD E. BUTLER
Variance from Minimum FRONT YARD and OPEN SPACE Requirements
Tax Map Key: 7-2-008: 032

After reviewing your application and the information submitted, the Planning Director certifies the approval of your variance request to allow an existing two story single family dwelling with a 15.8 feet front yard in lieu of the minimum 20 feet front yard, and a 3.4 to 13.4 feet open space in lieu of the minimum 14 feet open space, as required by Chapter 25, Article 5, Division 1, Section 25-5-7(a)(2), and Article 4, Division 4, Section 25-4-44(a).

The subject property is located in the Kona Ocean View Subdivision, Lot 7, at Puukala, North Kona, Hawaii, Tax Map Key: 7-2-008: 032.

The Planning Director has concluded that the variance request from the minimum front yard and open space requirements should be approved based on the following findings:

SPECIAL AND UNUSUAL CIRCUMSTANCES

1. The subject property consists of 11,093 square feet of land area.
2. The subject single family dwelling was issued the following building permit:

JUL 20 1997

07875

Mr. Klaus Conventz

Page 2

July 21, 1997

- a. Building Permit No. 03771 opened on August 7, 1978 for a single family dwelling and closed on October 21, 1982.
3. A survey map prepared by KKM Surveys on May 20, 1997, shows the EXISTING TWO STORY SINGLE FAMILY DWELLING with 15.8 feet front yard in lieu of the minimum 20 feet front yard. As such, the dwelling encroaches by 4 feet 2 and 3/8 inches into the required 20 feet front yard.
4. The survey map shows the EXISTING TWO STORY SINGLE FAMILY DWELLING with a 3.4 to 13.4 feet open space in lieu of the minimum 14 feet open space. As such, the dwelling encroaches 7 and 1/4 inches to 10 feet 7 and 1/4 inches in the required 14 feet open space.
5. The homeowner at that time, received all of the necessary Department of Public Works, Building Division approvals for dwelling.
6. When the plans were approved by the Planning Department, the plans would have had to show that all minimum required setbacks were going to be adhere to for the proposed dwelling in 1978.
7. There appears to have been a construction staking error occurred in 1978 when the dwelling was constructed in the siting of the structure on the property. There also appears that a very minor siting error was done at the time of construction with the encroachments. No other evidence has been found to show otherwise.
8. It has been over 19 years since the construction of the existing dwelling which was approved by the County and the applicant is trying to resolve a situation which he had no control over and has honestly conducted a certified survey to ensure to disclosure of all facts concerning the dwelling.
9. The variance application was filed with the Planning Department on May 27, 1997.

Therefore, considering the foregoing facts, the Planning Director has determined that there are special or unusual circumstances applying to the subject property which exist either to a degree which deprives the owner or applicant of substantial property rights that would otherwise be available or to a degree which obviously interferes with the best use or manner of development of the subject property.

Mr. Klaus Conventz

ALTERNATIVES

1. The applicant on his own volition is honestly trying to resolve this long standing problem which was not created by the applicant. The investigation of this particular matter has not shown any deliberate or intentional grounds in allowing the encroachments to occur.
2. Any architectural alterations or design changes to the dwelling to conform with the minimum setbacks would create undue and excessive hardships of the applicant when other more reasonable options are available.

Based on the above cited considerations, there are no reasonable available solutions without excessive demands placed on the applicant when a more reasonable alternative is available by the granting of this variance application.

INTENT AND PURPOSE

The intent and purpose of requiring buildings setbacks within a subdivision is to assure that adequate air and light circulation is available between structures and property lines. The existing dwelling on the subject property is presently into the front yard 4 feet 2 and 3/8 inches into the required 20 feet front yard; 7 and 1/4 inches to 10 feet 7 and 1/4 inches in the required 14 feet open space. These encroachments into the front yard and open space are minor but are not visually perceptible that it will diminish the ability for adequate light, air and open space. Therefore, while the Zoning Code requires a minimum 20 feet front yard and 14 feet open space in this particular case, the encroachments are minor that will not visually or physically impact or be adverse to any adjacent properties or development with the granting of this variance. The rest of the existing dwelling complies with the minimum yard requirements of the Zoning Code.

There were no objections from any of the participating government agencies or any surrounding property owners.

Based on the foregoing findings, this variance request would be consistent with the general purpose of the zoning district, the intent and purpose of the Zoning Code and Subdivision Codes and the County General Plan; will not be materially detrimental to the public's welfare; and will not cause substantial adverse impact to the areas character and to adjoining properties.

Mr. Klaus Conventz

This variance request is approved, subject to the following conditions:

1. The applicant, its assigns or successors, shall be responsible for complying with all stated conditions of approval.
2. The approval of this variance shall be included in the conveyance document for the subject property and a copy of the recorded conveyance document shall be submitted to the Planning Department within a year from the effective date of approval of this variance.
3. All unpermitted alterations to the single family dwelling shall be removed or permitted by the Department of Public Works Building Division.
4. Any encroachments within the State or County right-of-way shall be removed as required by Department of Public Works Engineering.
5. Obtain approval from the Board of Appeals for all Housing and Building Code Violations, if applicable.
6. All other applicable State and County rules and regulations shall be complied with.

Should any of the foregoing conditions not be complied with, the Planning Director may proceed to declare this Variance Permit null and void.

Should you have any questions, please feel free to contact Royden Yamasato of this department.

Sincerely,

VIRGINIA GOLDSTEIN
Planning Director
