February 27, 1998

Mr. Klaus D. Conventz
P.O. Box 2308
Kailua-Kona, Hawaii 96745

Dear Mr. Conventz:

Variance Application WH (VAR 98-01)
Variance No. 902
Applicant: KLAUS D. CONVENTZ
Owner: JOYCE WHITE
Request: Variance from Minimum Side Yard Requirements
Tax Map Key: 7-5-016: 018

After reviewing your application and the additional information submitted, the Planning Director certifies the approval of your variance request to allow an existing two story single family dwelling with a 19.76 to 19.94 feet side yard in lieu of the minimum 20 feet side yard, as required by Chapter 25, Article 5, Division 7, Section 25-5-76(a).

The subject property is located at a Portion of Royal Patent 8072, L.C. Aw. 7073, Apana 8 to Kapae, at Kahului 2nd, North Kona, Hawaii Tax Map Key: 7-5-016: 018.

SPECIAL AND UNUSUAL CIRCUMSTANCES

1. The subject property consists of 3.85 acres of land area.
2. The subject single family dwelling was issued the following building permits:
 - a. Building Permit No. 005418 opened on April 21, 1982 and closed on August 23, 1982 for the construction of the dwelling and carport.
 - b. Building Permit No. 007726 opened on September 25, 1986 and closed on January 22, 1987 for the conversion of hallway into a closet.

MAR 06 1998

02413

- c. Building Permit No. 008092 opened on March 16, 1987 and closed on May 28, 1987 for the construction of a deck.
 - d. Building Permit No. 008312 opened on June 16, 1987 and closed on October 16, 1987 for an addition to the first floor.
 - e. Building Permit No. 008366 opened on July 6, 1987 and closed on October 16, 1987 for construction of exterior stairs.
 - f. Building Permit No. 906323 opened on October 1, 1990 and closed on October 14, 1991 for the construction of an entertainment room, bar, bath, deck, and interior spiral stairway.
 - g. Building Permit No. 915339 opened on April 2, 1991 and closed on October 14, 1991 for a bar sink.
3. A survey map prepared by Don McIntosh Consulting, on December 19, 1997, shows the existing two story single family dwelling with a 19.76 to 19.94 feet side yard in lieu of the minimum 20 feet side yard. As such the dwelling encroaches 3/4 inches to 2-7/8 inches into the required 20 feet side yard.
 4. When the building permit was approved, the owner received all of the necessary Department of Public Works, Building Division approvals for the dwelling.
 5. When approved by the Planning Department, the plans would have had to have shown that all minimum required setbacks were going to be adhered to for the proposed dwelling in 1982.
 6. There appears to have been a construction staking error in the siting of the structure on the property. This occurred in 1982 when the dwelling was constructed. There also appears to have been a very minor siting error made at the time of construction with the encroachment. No other evidence has been found to show otherwise.
 7. It has been over 16 years since the construction of the existing dwelling was approved by the County, and the applicant is trying to resolve a situation which she had no control over and has honestly conducted a certified survey to ensure the disclosure of all facts concerning the dwelling.
 8. The variance application was filed with the Planning Department on January 1, 1998.

Therefore, considering the foregoing facts, the Planning Director has determined that there are special or unusual circumstances applying to the subject property which exist either to a degree which deprives the owner or applicant of substantial property rights that would otherwise be available or to a degree which obviously interferes with the best use or manner of development of the subject property.

ALTERNATIVES

1. The owner on her own volition is honestly trying to resolve this long standing problem which was not created by her. The investigation of this particular matter has not revealed any deliberate or intentional grounds in allowing the encroachments to occur.
2. Any architectural alterations or design changes to the building to conform with the minimum setbacks would create undue and excessive hardships for the applicant when other more reasonable options are available.

Based on the above cited considerations, there are no reasonable solutions available without excessive demands being placed on the owner when a more reasonable alternative is available by the granting of this variance application.

INTENT AND PURPOSE

The intent and purpose of requiring buildings setbacks is to assure that adequate air and light circulation is available between structures and property lines. The existing dwelling on the subject property is presently 3/4 inches to 2-7/8 inches into the required 20 feet side yard. These encroachments into the side yard will not diminish the ability for adequate light and air to circulate and will still provide adequate open space. Therefore, while the Zoning Code requires a minimum 20 feet side yard, in this particular case, the encroachments are relatively minor and will not visually or physically impact or be adverse to any adjacent properties or development with the granting of this variance. The rest of the existing dwelling complies with the minimum yard requirements of the Zoning Code.

There were no objections from any of the participating government agencies or any surrounding property owners.

Based on the foregoing findings, this variance request would be consistent with the general purpose of the zoning district and the intents and purposes of the Zoning Code, Subdivision Code and the County General Plan. Furthermore, this variance will not be materially detrimental to the public's welfare and will not cause substantial adverse impact to the area's character and to adjoining properties.

Mr. Klaus Conventz

This variance request is approved, subject to the following conditions:

1. The owner, assigns or successors shall be responsible for complying with all stated conditions of approval.
2. The approval of this variance shall be included in the conveyance document for the subject property and a copy of the recorded conveyance document shall be submitted to the Planning Department within a year from the effective date of approval of this variance.
3. If applicable, approval from the Board of Appeals for all Building Code Violations will be obtained.
4. All other applicable State and County rules and regulations shall be complied with.

Should any of the foregoing conditions not be complied with, the Planning Director may proceed to declare this Variance Permit null and void.

Should you have any questions, please feel free to contact Royden Yamasato of this department at 327-3510.

Sincerely,

VIRGINIA GOLDSTEIN
Planning Director
