- I. An archaeological study/survey of the subject property shall be prepared and submitted for approval by the Planning Director, in consultation with the Department of Land and Natural Resources-Historic Preservation Division (DLNR-HPD), prior to submittal of plans for subdivision review or any land alteration activity, whichever occurs first. The scope of work for the archaeological study shall be determined by the DLNR-HPD. Should significant historical sites be found within the project site which merit preservation or the implementation of mitigative measures, the applicants shall submit an archaeological mitigation/preservation plan for the review and approval of the Planning Director, in consultation with the DLNR-HPD, prior to the issuance of Final Subdivision Approval of the proposed subdivision or any land alteration activity, whichever occurs first.

- L. Interior subdivision road(s) shall be constructed in a manner meeting with the approval of the Department of Public Works.

The fair share contribution shall become due and payable prior to final subdivision approval of any portion of the subject property or within five (5) years from the effective date of this change of zone ordinance, whichever occurs first. The fair share contribution for each lot shall be based on a maximum density for each lot as determined by the zoning resulting from this change of zone. The fair share contribution in a form of cash, land, facilities, or any combination thereof acceptable to the director, in consultation with the affected agencies shall have a maximum combined value of \$50,674.12, provided that the fair share contribution to address the potential road impacts shall only be in the form of cash and shall be

applied to improving the Kaloko Drive/Hawaii Belt Road intersection. The fair share contribution described above shall be adjusted annually beginning three years after the effective date of this ordinance, based on the percentage change in the Honolulu Consumer Price Index (HCPI). In lieu of paying the fair share contribution for other facility impacts, the applicant may construct such facilities related to park, fire, police, and solid waste disposal facilities with the approval of the appropriate agency(ies).

- N. Should the Council adopt a Unified Impact Fees Ordinance setting forth criteria for the imposition of exactions or the assessment of impact fees, conditions included herein shall be credited towards the requirements of the Unified Impact Fees Ordinance.
- O. The applicant shall comply with all applicable laws, rules, regulations and requirements of the affected agencies.
- P. An initial extension of time for the performance of conditions within the ordinance may be granted by the Planning Director upon the following circumstances:
 - 1. The non-performance is the result of conditions that could not have been foreseen or are beyond the control of the applicants, its successors or assigns, and that are not the result of their fault or negligence;

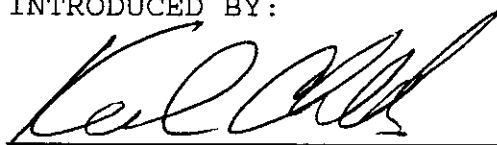

2. Granting of the time extension would not be contrary to the General Plan or Zoning Code;
3. Granting of the time extension would not be contrary to the original reasons for the granting of the change of zone;
4. The time extension granted shall be for a period not to exceed the period originally granted for performance (i.e., a condition to be performed within one year may be extended for up to one additional year); and
5. Should the applicants request an additional extension of time, the Planning Director shall submit the applicants' request to the County Council for appropriate action.

Q. Should any of the conditions not be met or substantially complied with in a timely fashion, the Director shall initiate rezoning of the area to its original or more appropriate designation.

SECTION 3. In the event that any portion of the ordinance is declared invalid, such invalidity shall not affect the other parts of this ordinance.

SECTION 4. This ordinance shall take effect upon its approval.
