If the subject area is developed in two or more increments, the amount of the fair share contribution due and payable prior to final plan approval of each increment shall be a sum calculated in the same manner according to the number of proposed units in each such increment. The fair share contribution may be in a form of cash, land, facilities, or any combination thereof acceptable to the Planning Director in consultation with the affected agencies. The fair share contribution shall have a maximum combined value of **\$7,965.90 per resort unit**. Based upon the applicant's representation of intent to develop up to 4 units, the indicated total fair share contribution is **\$31,863.60**. a certificate of occupancy of the proposed development within the subject property.

- L. Comply with all applicable laws, rules, regulations and requirements, including those of the Department of Health, Fire Department and Department of Water Supply.

- N. An extension of time for the performance of conditions within the ordinance, with the exception of Condition B, may be granted by the Planning Director upon the following circumstances:
 - 1. The non-performance is the result of conditions that could not have been foreseen or are beyond the control of the applicant, successors or assigns, and that is not the result of their fault or negligence.
 - 2. Granting of the time extension would not be contrary to the General Plan or Zoning Code.
 - 3. Granting of the time extension would not be contrary to the original reasons for the granting of the change of zone.
 - 4. The time extension granted shall be for a period not to exceed the period originally granted for performance (i.e., a condition to be performed within one year may be extended for up to one additional year).

- O. Should any of the conditions not be met or substantially complied with in a timely fashion, the Director may initiate rezoning of the subject property to its original or more appropriate designation.
