The applicants shall construct necessary water system improvements (including but not limited to installation of a service lateral to accommodate a 5/8-inch meter for the proposed additional lot and fire hydrants within 300 feet of each lot) and remit the prevailing facilities charge, as determined by the Department of Water Supply and convey these improvements to the County Water Board prior to Final Subdivision Approval.

Subsequent work shall proceed upon an archaeological clearance from DLNR-SHPD when it finds that sufficient mitigation measures have been taken.
- L. Should the Council adopt a Unified Impact Fees Ordinance setting forth criteria for the imposition of exactions or the assessment of impact fees, conditions included herein shall be credited towards the requirements of the Unified Impact Fees Ordinance.
- M. The applicants, successors or assigns shall comply with all applicable County, State and Federal laws, rules, regulations and requirements.

- N. An initial extension of time for the performance of conditions within the ordinance may be granted by the Planning Director upon the following circumstances:
1. The non-performance is the result of conditions that could not have been foreseen or are beyond the control of the applicants, successors or assigns, and are not the result of their fault or negligence.
 2. Granting of the time extension would not be contrary to the General Plan or Zoning Code.
 3. Granting of the time extension would not be contrary to the original reasons for the granting of the change of zone.
 4. The time extension granted shall be for a period not to exceed the period originally granted for performance (i.e., a condition to be performed within one year may be extended for up to one additional year).
 5. If the applicants should require an additional extension of time, the Planning Department shall submit the applicants' request to the County Council for appropriate action.
