Subject: RE: Verbal Interpretation per Tax Map Key 2-8-15: 19, Honomu, North Hilo, Hawaii

Norman - Thanks for the information. I made the changes to my GIS data layer specific to this TMK number based on the pdf files sent by Fred. I will update this data layer on the ArcExplorer and ArcGIS project files perhaps this weekend. FYI, these types of updates can only be done when no one is on the program (i.e. after working hours or during the weekends). If you should need this updated data layer sooner, let me know and I'll try to accommodate you. Thanks.

For your information. I asked LUC for interpretation cause I couldn't determine the where the Conservation/Agricultural District boundaries were.

Norman:

We think your talking about **2-8-15: 19**, not (3) 2-8-13: 19, because we can not find (3) 2-8-13: 19 on the tax maps.

We attached 2 "pdf" file that depicts the subject parcel and State Land Use (SLU) District boundaries. The SLU map with parcel data and Agricultural / Conservation Districts is not to scale. The blow up of portion of the SLU official map H-65, USGS Papaikou is also not to scale.

If you require clarification or further assistance please feel free to contact our office at 808-587-3822.
