Ms. Penny Brumbaugh
A Hui Hou Crematory and Funeral Home
74-5615 Luhia Street
Kailua-Kona, HI 96740

Dear Ms. Brumbaugh:

Use Permit Application (USE 11-000026)

Applicant: A Hui Hou Tribute Center, LLC
Request: Full Service Cremation Facility
Tax Map Key: 7-4-015:022

Revocation of Use Permit No. 06-000004

Applicant: A Hui Hou Tribute Center, LLC
Tax Map Key No. 7-5-22:3

The Leeward Planning Commission at its duly held public hearing on August 18, 2011, voted to approve the above-referenced request to allow the establishment of a full service cremation facility on property zoned General Industrial (MG-1a). The project site is situated at 74-5616 Luhia Street, which is situated along the north side of Luhia Street at the junction of Luhia Street and Eho Street, Keahuolu, North Kona, Hawai'i. The Commission also subsequently voted to revoke Use Permit No. 06-000004 as requested by the applicant. Use Permit No. 06-000004 was previously approved to allow cremation within a mortuary facility on property zoned Village Commercial (CV). The property (former 7-Eleven Store) is located along the east side of Kuakini Highway, approximately 100 feet northwest of the Kuakini Highway – Hualālai Road intersection, Honuaula, Kailua Village, North Kona, Hawai'i.

Approval of Use Permit No. 11-000026 is based on the following:

The applicant is requesting a Use Permit to allow the establishment of a full service cremation facility on property zoned General Industrial (MG-1a). The request is to allow the cremation of human remains in an oven built specifically for that purpose. The cremation equipment is an American A-200HT Cremator made by the American Crematory Equipment Company. There will be a crematory hot air stack for emissions protruding approximately seven feet above the roof of the structure. The manufacturer advertises that the unit is smoke and odor free and is temperature controlled to prevent overheating and operator error. According to the applicant, the existing facility is "funeral services office." The applicant provides many services to the deceased with the exception of viewings or on-site services. The addition of a retort will allow the applicant the opportunity to cremate the deceased in an affordable and timely manner for the convenience of the family. The facility will operate 24 hours a day, 7 days a week, and there will be two to three full-time employees on-site at any given time.

The reason for the request is that the applicant is in the process of relocating their cremation business from the previously approved location, which was at 75-5715 Kuakini Highway in Kailua Village (the former 7-11 store location) to this new location at 74-5615 Luhia Street. The applicant is submitting the Use Permit application as required to operate a crematorium on property zoned General Industrial (MG-1a). Additionally, the applicant has concurrently submitted a request to revoke Use Permit No. 06-000004 that applied to the applicant's Kuakini Highway facility.

In considering the Use Permit request, the Planning Commission found that the proposed use would conform to the following guidelines of Rule 7 of the Planning Commission Rules relating to Use Permits:

- (A) The granting of the proposed use shall be consistent with the general purpose of the zoned district, the intent and purpose of the Zoning Code, and the County General Plan;
- (B) The granting of the proposed use shall not be materially detrimental to the public welfare nor cause substantial, adverse impact to the community's character or to surrounding properties; and
- (C) The granting of the proposed use shall not unreasonably burden public agencies to provide roads and streets, sewer, water, drainage, schools, police and fire protection and other related infrastructure.

The proposed request to allow the establishment of a full service cremation facility on property zoned General Industrial (MG-1a) would meet the guidelines for approval of a Use Permit, for the reasons outlined below.

The granting of the proposed use is consistent with the general purpose of the zoned district, the intent and purpose of the Zoning Code, and the County General Plan.

According to the Zoning Code, the MG (general industrial) district applies to areas for uses that are generally considered to be offensive or have some element of danger. Crematoriums may be permitted in the MG district, provided that a use permit is secured. The applicant proposes to operate a full service cremation facility on property zoned General Industrial (MG-1a) within an existing building called the Palm Terrace and is applying for a use permit. The General Plan designation for this area is Industrial, which includes uses such as manufacturing and processing, wholesaling, large storage and transportation facilities, light industrial and industrial-commercial uses. The proposed use is consistent with the intent of the General Plan designation and as such, the use will not significantly alter the appearance or character of the neighborhood.

The proposed request would complement the following policies of the General Plan:

Economic Element

- Economic development and improvements shall be in balance with the physical, social and cultural environments of the island of Hawai'i.
- Provide an economic environment which allows new, expanded, or improved economic opportunities that are compatible with the County's cultural, natural and social environment.

Land Use Element

- Encourage the development and maintenance of communities meeting the needs of its residents in balance with the physical and social environment.

Thus, the proposed full service cremation facility is consistent with the intent of the Zoning Code for this district, is consistent with the General Plan designation and is in keeping with the policies Economic and Land Use Elements of the General Plan.

The granting of the proposed use is not materially detrimental to the public welfare nor will it cause substantial, adverse impact to the community's character or to surrounding properties. The subject property is 1.6 acres in size and is located at 74-5615 Luhia Street in Kailua-Kona. The existing building is called the Palm Terrace, which contains several commercial businesses. The applicant is leasing a 1,270 square-

foot area, which was the previous location of the Harley Davidson Motorcycle store. The parking lot contains 65 parking spaces available for common use by all, in which the applicant may use three stalls at any given time.

The surrounding properties are similarly zoned MG-1a to the west and south. Properties to the east are zoned CV-10 and properties to the north across Queen Kaahumanu Highway are zoned CG-10. Uses in the immediate area include commercial retail establishments and industrial type of businesses.

At this time, there are two cremation businesses on the east side of the Big Island, Dodo Mortuary and Homelani, and there are two cremation businesses on the west side of the Big Island, the applicant's business and Cremation Services of West Hawai'i.

The cremation services will be operated within an existing building and will not change the character of the surrounding area or cause adverse impacts to the surrounding properties. The retort must pass stringent environmental standards in order to be approved for use in the State of Hawai'i. Today's retort are very clean burning due to EPA statutes. When operated properly, the retort is smokeless and odorless.

Lastly, the Planning Department has not received any letters of opposition from the community.

Based on the above information, the proposed use should not be materially detrimental to the public welfare nor should it cause substantial, adverse impact to the community's character or to surrounding properties.

The granting of the proposed use will not unreasonably burden public agencies to provide roads and streets, sewer, water, drainage, schools, police and fire protection and other related infrastructure. Access to the subject property is from Luhia Street, which a County owned and maintained roadway that has a 20-foot wide paved access road within a 60-foot wide right-of-way. Traffic impacts are expected to be minimal for the proposed use. Wastewater will be disposed of in accordance with applicable rules of the Department of Health and Department of Environmental Management. The property is located in Zone X and is not located within any designated flood plain. Water, telephone and electricity are available to the facility. Police and fire protection are located within one mile from the property.

The project site is located approximately 3,500 feet from the nearest coastline and will not impact any recreational resources, including access to and along the shoreline, mountain access, scenic and open space nor visual resources, coastal ecosystems, and

marine coastal resources. Further, the property will not be affected by any coastal hazards nor beach erosion. Therefore, the approval of the subject request shall not be contrary to the objectives and policies of the Coastal Zone Management Program.

Further, as the property has been developed, it is also not anticipated that the proposed request will have any adverse impact on cultural or historical resources in the area.

Based on the above, Use Permit No. 11-000026 is approved subject to the following conditions:

1. The applicant, successors, or assigns shall be responsible for complying with all stated conditions of approval.
2. The crematorium shall be established within two (2) years from the effective date this permit.
3. The operation of the funeral services office and crematorium shall be conducted in a manner that is substantially representative of plans and details as contained within the Use Permit Application (USE 11-000026) received on May 16, 2011.
4. The applicant shall not conduct services, viewings or similar activities on-site.
5. The applicant shall have a backup generator for the crematorium.
6. The applicant shall comply with all applicable County, State and Federal laws, rules, regulations and requirements, including the Department of Health, Department of Environmental Management, Department of Public Works and the Environmental Protection Agency (EPA) for this use.
7. Any complaints received by the applicant shall be forwarded to the Planning Director. The Planning Director shall investigate and, if necessary, suspend the permit. If the complaint(s) is not resolved, the Planning Director shall then refer the matter to the Planning Commission to revoke the permit. Upon appropriate findings by the Planning Commission, if the applicants fail to comply with the conditions of approval or has caused any unreasonable interference or nuisance on the surrounding community, the permit may be revoked.
8. An initial extension of time for the performance of conditions within the permit may be granted by the Planning Director upon the following circumstances:

Ms. Penny Brumbaugh
A Hui Hou Crematory and Funeral Home
Page 6

- A. The non-performance is the result of conditions that could not have been foreseen or are beyond the control of the applicant, successors or assigns, and that are not the result of their fault or negligence.
- B. Granting of the time extension would not be contrary to the General Plan or Zoning Code.
- C. Granting of the time extension would not be contrary to the original reasons for granting of the permit.
- D. The time extension granted shall be for a period not to exceed the period originally granted for performance (i.e., a condition to be performed within one year may be extended for up to one additional year).

Should any of the conditions not be met or substantially complied with in a timely fashion, the Director may initiate procedures to revoke the permit.

This approval does not, however, sanction the specific plans submitted with the application as they may be subject to change given specific code and regulatory requirements of the affected agencies.

Should you have any questions, please contact Daryn Arai of the Planning Department at 961-8288.

Sincerely,

Wayne Iokepa, Acting Chairman
Leeward Planning Commission

May 13, 2011

BJ Leithead Todd
Planning Director
County of Hawaii
Planning Department
Aupuni Center
101 Pauahi Street, Ste 3
Hilo Hawaii 96720

Dear Ms Todd:

Enclosed is the Use Permit Application requesting to allow a full service Cremation Facility on Property Zoned General Industrial (MG-1a). We began this process last July, and have met all requirements of Queen Liliuokalani Trust receiving their signature dated February 28, 2011. Just having received these documents back we are attempting to get in motion all requirements so as to be on the June docket for the Planning Committee Meeting in Kona.

We have posted the sign as evidenced by the affidavit attached to the application, and have sent out an initial letter and documents (Exhibit E of application) November 25, 2010 to all property owners and leaseholds on record. We are prepared to send another as soon as we are notified of the meeting date.

Please let us know.

Thank you.

Sincerely,

Penny Brumbaugh
Member Manager

071501

"From our Ohana to yours, where families come first"

Affidavit on Posting of Sign

We have prepared the sign, with the information below, posted as required near the property boundary adjacent to the public road bordering the property. This was completed Friday, May 13, 2011. Specifications: 4 feet by 3 feet (12 ft square), with 1 inch lettering as required.

Its: Vice President

Date: February 28, 2011

CERTIFICATION, REPRESENTATION, AND WARRANTY STATEMENT

THIS CERTIFICATION, REPRESENTATION, AND WARRANTY STATEMENT ("Certification") is made this 10th day of February, 2011 by COMMUNITY FOUNDATION FOR MONTEREY COUNTY REAL ESTATE #1, LLC, a California Non-Profit Benefit Corporation, whose address is 2354 Garden Road, Monterey California, 93940, ("Lessee"), and A HUI HOU TRIBUTE CENTER, LLC, a Hawaii limited liability company, whose address is P. O. Box 5489, Kailua-Kona, Hawaii 96745 ("Tenant").

RECITALS

WHEREAS, THOMAS K. KAULUKUKUI, JR., PATRICK K.S.L. YIM, and CLAIRE L. ASAM, Trustees of the Queen Lili'uokalani Trust ("Lessor") entered into that certain Lease dated November 29, 1983 with Eagle Distributors, Inc., a Hawaii corporation, demising that certain leasehold premises located at KONA INDUSTRIAL SUBDIVISION, UNIT V, LOT 7 and identified as Tax Map Key No. (3) 7-4-015-022, recorded on January 6, 1984 at the Bureau of Conveyances of the State of Hawaii in Liber 17573 at Page 1 (said Lease, as amended from time to time, hereafter is called the "Lease"); and

WHEREAS, said Lease was assigned by mesne assignment to Lessee by that certain Assignment of Lease recorded on July 18, 2008 at said Bureau as Document No. 2008-115844; and

WHEREAS, Lessee has entered into a sublease with Tenant for the use of the subject Premises under the terms and conditions stated in that certain Sublease dated June 25, 2010; and

WHEREAS, Tenant is required to submit a Use Permit Application to the County of Hawaii, Planning Commission, in order to operate a full service cremation facility on the subject Premises ("Application") and said Application requires the approval of Lessor; and

WHEREAS, Lessor is agreeable with executing said Application as Lessor as requested by Lessee and Tenant provided that Lessee and Tenant execute this Certification.

NOW, THEREFORE, Lessee and Tenant certify, represent, and warrant as follows:

A. Lessee and Tenant, individually and jointly, acknowledge and affirm Part III, Subsections A.2.i. and A.2.j. of said Application, which specifically states, in pertinent part, that "particulate emissions from the crematory unit shall not exceed 0.20 pounds per 100 pounds of material charged," and that for "any six (6) minute averaging period, the crematory unit shall not exhibit visible emissions of twenty (20) percent opacity or greater, except as follows: during start-up, shutdowns, or equipment breakdown, the crematory unit may exhibit visible emissions

greater than twenty (20), but not exceeding sixty (60) percent opacity for a period aggregating not more than six (6) minutes in any sixty (60) minute period," respectively; and

B. Lessee and Tenant, individually and jointly, acknowledge and affirm that the Noncovered Source Permit, No. 0732-01-N referenced in the State Department of Health August 3, 2010 Letter, attached as Exhibit "B" to said Application, does allow for emission of air pollutants in a "specified manner or amount"; and

C. Lessee and Tenant, individually and jointly, acknowledge and affirm the use restrictions under the Lease, Section 6.3, and the Design Standards and Design Criteria, Permitted Uses, Pages 2-3, which, among other things, specifically prohibits any use that emits any "odor, dust, smoke, gas, noise, vibration, radiation or other effect that has measurable nuisance qualities beyond the property line"; and

D. Lessee and Tenant, individually and jointly, represent and warrant that notwithstanding the visible particulate emissions disclosed in Sections A and B above, such emissions will not under any circumstances result in any odor, dust, smoke, gas, noise, vibration, radiation, or other effect that has measurable nuisance qualities beyond the property line of the subject Premises.

The parties agree and acknowledge that this Certification is binding upon each party hereto as of the date hereof.

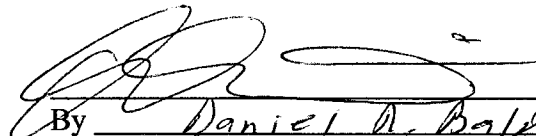

The parties agree that this Certification may be executed in counterparts, each of which shall be deemed an original, and said counterparts shall together constitute one and the same agreement, binding all of the parties hereto, notwithstanding all of the parties are not signatory to the original or the same counterparts. For all purposes, including, without limitation, recordation, filing, and delivery of this instrument, duplicate unexecuted and unacknowledged pages of the counterparts may be discarded and the remaining pages assembled as one document.

Lessee and Tenant understand and acknowledge that this Certification is a material inducement to Lessor to cooperate with the execution of the Application as Lessor and landowner.

[REMAINDER OF THIS PAGE INTENTIONALLY LEFT BLANK.]

IN WITNESS WHEREOF, Lessee and Tenant have executed this instrument as of the date and year first above written.

“Tenant”

- I. A filing fee of \$500.00 is attached.
- II. The Original and twenty copies of completed application are enclosed.
- III. The Original and twenty copies of background information are enclosed.
 - A. Description of proposed use:
 1. Description: We are a fully operational crematory. As such we remove deceased from place of death and bring them to our facility where we care for them in accordance with the Sanitation Department rules and regulations and the Health Department rules and regulations; we meet with families and make arrangements for services meeting the needs of the bereaved as well as the deceased; contact outside agencies and coordinate transportation from our facility to the mainland or foreign countries. There will be no viewings or services held on-site. Any viewings and services will be held off-site in approved meeting areas, chapels, cemeteries, and other locations.
 2. Our cremation chamber is a 150 lb/hr Human Crematory Unit, American Crematory Equipment Company Model A-200HT, Serial number 112005-A. Approved Air Quality Permit (see Exhibit B).
 - a. The crematory unit burners fire only on liquefied petroleum gas (LPG).
 - b. The exhaust stack of the incinerator is constructed to a minimum height of 23 feet above ground elevation.
 - c. The crematory unit shall only be charged with deceased human remains which include the casket, or the cloth used to cover the human remains.
 - d. The initial charge of the crematory unit shall not exceed 500 pounds.
 - e. The cremation rate shall not exceed 150 pounds per hour.
 - f. The set point of the temperature indicator/controller for the secondary chamber shall be set and maintained at a minimum of 1650 F. Ignition of the primary burner shall not occur until the secondary chamber has attained a minimum temperature of 1650 F.
 - g. The crematory unit shall not be used unless both the primary and secondary burners of the unit are functioning properly.
 - h. The crematory unit shall not be used unless the temperature indicator/controller and thermocouple for the secondary chamber equipped with the unit are functioning properly. The thermocouple measuring the temperature of the secondary chamber shall be replaced as recommended by the manufacturer and at any other time as necessary to ensure proper operation.
 - i. Particulate emissions from the crematory unit shall not exceed 0.20 pounds per 100 pounds of material charged. Approved Air Quality Permit (see Exhibit B)
 - j. For any six (6) minute averaging period, the crematory unit shall not exhibit visible emission of twenty (20) percent opacity or greater, except as follows: during start-up, shutdown, or equipment breakdown, the crematory unit may exhibit visible emissions greater than twenty (20), but not exceeding sixty (60) percent opacity for a period aggregating not more than six (6) minutes in any sixty (60) minute period. Approved Air Quality Permit (see Exhibit B)
 - k. Only properly trained personnel shall operate the crematory unit. A copy of the operator's manual shall be available in the vicinity of the crematory unit.
 - l. The crematory unit shall be properly maintained and kept in good operating condition at all times. The permittee shall follow a regular maintenance schedule to ensure proper operation of the crematory unit, as recommended by the manufacturer.

3. Statement of objectives and reasons for the request:
 - a. We moved our business from 75-5745 Kuakini Hwy to 74-5615 Luhia Street.
 - b. Our lease at 75-5745 Kuakini was to expire. After a few failed attempts to purchase the building it was only a matter of time where a move was inevitable.
 - c. To stay at current location has become cost prohibitive, with rents continuing to rise, we had no option other than to relocate our business.
 - d. With the economy suffering, our families are suffering, and increasing our costs to cover our rent increases would only increase the burden on our families. We want to continue to provide affordable services to our families.
4. Hours of operation would continue as already observed. We are a 24/hour, seven day/week facility, working totally at the discretion and request of our families.
5. We are a family owned business with two or three individuals on site at any given time.
6. We endeavor to grow our business. Last year we served 130 families and hope that moving our business to this location will keep us competitive by keeping our expenses down.
- B. Description of subject property in detail:
 1. Subject property (TMK (3) 7-4-15:22 is located in the Palm Terrace at 74-5615 Luhia Street, E-1, Kailua Kona, Hawaii 96740. The roads bordering the property are Queen Kaahumanu Hwy, Eho Street and Luhia Street.
 2. The previous tenant was Harley Davidson motorcycles, no exterior renovations or additions have been necessary. The location includes a parking lot that contains 65 parking stalls available for common use by all. At any given time we may use three stalls.
 3. The space is 1270 square feet (**Exhibit C**), single story with both a garage door and entry door.
 4. The topography is flat, there is a gradual rise from Luhia Street to location of proposed crematory.
 5. The remaining units on the property contain a variety of businesses serving the public; including a dive shop, window coverings, martial arts training studio, photographer, and others.
- C. State/County Plans affecting subject request:
 1. State Land Use designation is Urban
 2. General Plan designation is High Density Urban
 3. County Zoning is General Industrial-1 Acre (MG-1a); allows a cremation facility to operate with an approved USE permit.
 4. The proposed use is not located within the Special Management Area
 5. The proposed use falls within the area affected by the Kona Community Development Plan
- D. Surrounding zoning and land uses. The area where we moved our business is zoned General Industrial-1 Acre (MG-1a); the surrounding properties are zoned General Industrial and Village Commercial. The neighboring property along Eho street is Village Commercial and currently is undeveloped. The neighboring property bordering Queen Kaahumanu makai is all General Industrial and developed with numerous commercial buildings and businesses.
- E. Flood Insurance Rate Map (FIRM) designation: "X"
- F. Archaeological Resources: see attached letter requesting a "no effect" letter (**EXHIBIT A**)
- G. Floral and Faunal Resources...none required or has no affect on already established business site.
- H. Description of access to the area: We have an already established entrance from Luhia Street onto subject location.
- I. Traffic impacts...no affect
- J. Availability of utilities...again no affect, this is an established location and already has access to utilities.

IV. The Original and twenty copies of how the request meets with the following standards:

- A. The granting of the proposed use shall be consistent with the general purpose of the zones district, the intent and purpose of the Zoning Code and the County General Plan.
 - 1. The proposed use is consistent with the zoning code of allowable businesses operating in General Industrial-1 Acre (MG-1a)
 - 2. We have had no complaints filed against our operation while operating out of (CV) Commercial Village at 75-5745 Kuakini Hwy.
 - 3. Operating in 74-5615 Luhia Street, in General Industrial-1 Acre (MG-1a) will still be accessible to the public.
- B. The granting of the proposed use shall not be materially detrimental to the public welfare nor cause substantial adverse impact to the community's character or to surrounding properties.
 - 1. The proposed use is not materially detrimental to the public welfare nor shall it cause substantial adverse impact to the community's character or to surrounding properties.
 - 2. The cremation chamber is certified to meet all Department of Environmental Quality Clean Air requirements as evidences by our current Air Quality Permit **(EXHIBIT B)**
 - 3. It will be held within the structure of the building.
 - 4. It cannot be seen from the street.
 - 5. The stack from the roof will be the only indication of the unit. There will be only heat waves when in operation. No smoke will be seen.
 - 6. We have currently been operating under a Use Permit at the location on 75-5745 Kuakini Hwy downtown in Kailua-Kona. We have received no complaints since we have been in operation beginning 2007.
- C. The granting of the proposed use shall not unreasonably burden public agencies to provide roads and streets, sewers, water, drainage, school improvements, police and fire protection and other related infrastructure.
 - 1. Just as our operation out of our current location at 75-5745 Kuakini Hwy has not unreasonably burdened public agencies, operation out of the new location at 74-5615 Luhia Street will not unreasonably burden public agencies.
 - 2. No additional traffic will be incurred.
 - 3. No drainage is required.
 - 4. No additional police and fire protection required.

V. The Original and twenty (20) copies of a scale-drawn plot plan of the property showing property lines; all existing and proposed structures, uses and improvements; and reference points such as roadways, shoreline, etc. (See Attached) **(EXHIBIT C)**

VI. One copy of a full-size (2' x 3') scale-drawn plot plan of Item 5 for presentation purposes. (See attached) **(EXHIBIT D)**

VII. A list of the names , addresses and tax map keys of all owners and lessees of record of surrounding properties who are required to receive notice. (See attached) (EXHIBIT E)

Initial letter of contact to every name and address per record. (See attached)

All surrounding property is owned by Queen Liliuokalani Trust.

Kailua HI 96720*

To Whom It May Concern:

We are in the process of requesting a use permit. We currently operate at 75-5745 Kuakini Hwy in Kailua-Kona. We have operated as a full service Cremation facility since January 2007. We have received no complaints during our operation that we are aware of.

We are moving our business to 74-5615 Luhia Street in Kailua Kona. We intend to continue to run our business as we have done so at this new location. As such, we need a Use Permit to operate our Crematory facility in this new location.

We are not changing the building.

We are required to write to you to request a "no effect" letter with reference to the Historic Preservation Division requirements. As the building we are moving to is already in place, and we are not expanding its footprint, we request a "no effect" letter from your department.

Thank you for your prompt attention to this matter.

Sincerely,

Penny Brumbaugh
President

File No. 0732

Ms. Penny Brumbaugh
President
A Hui Hou Funeral and Tribute Services
74-5615 Luhia Street
Kailua-Kona, Hawaii 96740

Dear Ms. Brumbaugh:

Subject: Noncovered Source Permit (NSP) No. 0732-01-N
Initial Application No. 0732-01
A Hui Hou Funeral and Tribute Services
One (1) 150 lb/hr Human Crematory Unit
Located at: 74-5615 Luhia Street, Kailua-Kona, Hawaii
Date of Expiration: August 2, 2015

The subject noncovered source permit is issued in accordance with Hawaii Administrative Rules, Title 11, Chapter 60.1. The issuance of this permit is based on the plans, specifications, and additional information that you submitted as part of your application on July 19, 2010 and additional information submitted on July 20 and 21, 2010. A receipt for the application filing fee of \$150.00 is enclosed.

The Noncovered Source Permit is issued subject to the conditions/requirements set forth in the following Attachments:

Attachment I: Standard Conditions
Attachment II: Special Conditions
Attachment III: Annual Fee Requirements

The following forms are enclosed for your use and submittal as required:

Annual Fee Form
Monitoring Report Form: Crematory Unit

This permit: (a) shall not in any manner affect the title of the premises upon which the equipment is to be located; (b) does not release the permittee from any liability for any loss due to personal injury or property damage caused by, resulting from or arising out of the design,

Ms. Penny Brumbaugh

A Hui Hou Crematory and Funeral Home

Exhibit E

Burials • Scattering • Cremations • Cemetery Markers

November 15, 2010

Notice to the affected property owners and lessees:

A Hui Hou Crematory is located at 74-5615 Luhia Street, Kailua-Kona. Our mission is to help the family of the deceased through the difficult days following a death by taking care of the remains of their loved one, and to help them meaningfully plan a tribute in honor of their loved one in a traditional or non-traditional service. A Hui Hou Tribute Center, LLC is committed to providing services that meet the families' needs and wants.

We are the only full service facility in West Hawaii. We are the "hometown" funeral home. The only other full-service facilities are located in Hilo, a five hour round trip drive. The families here need us and to that end we will continue to provide quality services, meeting their needs as our first priority.

We opened in October 2004 downtown in the Kailua Village district on Kuakini Highway. At first many people were concerned because we were by restaurants, offices, and a residential community. Understandably people were worried about the possibility of smoke, smell, ash. We were granted a use permit to operate, and have operated there for three years. Those who were concerned and had voiced their fears, found, that as we had said, there was no smoke, smell, or ash. No complaints were ever filed against us. We operated our unit in consideration of our neighbors; no one even seemed to notice we were operating. Families would come in and inquire into where our cremations were done, and seemed very surprised that they were done on site. We went to great extent to be sure to comply with all laws and regulations.

A part of the process is getting a Clean Air Permit with the State of Hawaii, and we have done so. It approves our operation at the Luhia street location. There are strict standards that must be complied with. We did so at the Kuakini address and will continue to do so here at the Luhia Street address.

We are a part of the community. Our families are here. We feel a civic responsibility to help families and in doing so do not limit our services only to those who can pay. We have never turned anyone away. Our first priority is to care for the families and to work with them. This is very different from our competitors. We also offer our services at no charge for children seventeen (17) and under. The hospitals are all aware of our services and as such we have helped many families that have lost babies. However, while we do not charge for our services, we do have to pay any third parties their fees. While at the Kuakini address we were able to provide cremations with no charge, as well as burials (the family needs to pay for a casket and cemetery fees); unfortunately until we receive the use permit to run the chamber at the Luhia address we have not been able to provide free cremation services.

"From our Ohana to yours, where families come first"

Please understand. We provide valuable services to those families of West Hawaii, and wish to continue. We have served over 450 families over the time we have operated.

While at our previous location, at 75-5745 Kuakini Hwy we provided services at the point of death: transferring the deceased from place of death to our business; storage and preparation of the body including bathing, refrigeration, embalming, autopsy repair, cosmetising, dressing, casketing and viewing, cremation of remains; meeting with families; arranging services including contacting ministers, musicians, building reservations, cemetery arrangements, grave opening and closing; casket ordering, delivery and storage; urn ordering, delivery and storage; marker ordering, delivery and storage; arrangements for air travel of deceased and assistance in arrangements for air travel for deceased's family; transportation of remains to and from place of service, viewing, and gathering; arrangements of police escort; transportation of remains to place of internment or inurnment; preparation and filing of necessary documents, permits, death certificate; notification of Social Security, State and Federal offices including Veteran's filing for benefits; and follow-up with family following death with grief support information and assistance and referral to local support organizations.

Currently we provide every possible service available to the deceased and would plan to continue to do so at our new location, 74-5615 Luhia Street, Kailua-Kona. There will be no structural changes necessary and there will be no affect on Flora and Fauna Resources, and no impact on traffic. The granting of this proposal is consistent with the zoning requirements for general industrial providing a use permit for cremation, it will not be materially detrimental to the public welfare nor cause substantial adverse impact to the community's character or to surrounding properties; and it will not unreasonably burden public agencies and existing infrastructure. We have been operating downtown in the Kailua-Village district for the past six years providing cremation services since January 2007 and have received no complaints.

This notification will act as first notice to owners and lessees of record and be submitted concurrently with subject application. You will also receive another notification within 10 days after receiving notice from the director of the date of the schedule public hearing, should one be necessary.

Attached is the letter from the American Crematory Equipment Co. certifying that the American A-200HT Cremator is manufactured with all UL listed and tested components, Air Quality approved, Source Tested and Mechanical Laboratories tested to insure safety. They guarantee environmental approval on all of their equipment. This unit is **smoke and odor free** and is temperature controlled to prevent overheating and operator error.

What we wish to note is that the addition of a cremator will not affect any business or resident in any manner, just as our current operations have not affected any business or resident in any manner.

Also attached is the letter directed to Queen Liliuokalani Trust giving written certification, acknowledging and affirming our intentions to follow as directed from the State of Hawaii the issued Clean Air Permit given for the use of this machine at this location.

Please allow us the opportunity to answer any questions that you may have.

Sincerely,

Penny Brumbaugh
Funeral Director/Owner

Re: New American Cremation Equipment and Accessories Installed

Dear Ladies,:

We want to thank you for giving us the opportunity to provide with one of our New Cremation Chamber. We have been manufacturing, servicing and repairing cremation equipment for over 38 years now. We are the only crematory manufacture on the West Coast with installations all along the eleven Western States.

Our American A-200HT Cremator is manufactured with all UL listed and tested components, Air Quality approved, Source Tested and Mechanical Laboratories tested to insure your safety. We guarantee environmental approval on all of our equipment. This unit is smoke and odor free and is temperature controlled to prevent overheating and operator error.

American Crematory supports you with the most experienced team of factory trained technicians. Our support staff is available 24 hours a day for technical assistance and service. We provide you with complete operator training and trouble shooting to insure that your staff is fully trained on the proper operation of each of our unit. Each operator will receive a "Certificate of Training" upon completion of the installation, start-up and complete training.

Please feel free to call us anytime you have any questions of need help with anything. We look forward to working with you and helping you with the expansion of your facility.

We hope to see you soon.....

Sincerely Appreciated,

AMERICAN CREMATORY EQUIPMENT CO.

Attn: Penny, Connie & Susan / Owners

Re: New "American" "Hot Hearth" Cremation Equipment & Accessories.

Dear Penny, Connie & Susan,

We want to "Thank you" for giving us the opportunity to provide you with our products and services. We look forward to working with you on your installation of a New Crematory. We have been manufacturing, servicing and repairing cremation equipment for over 30 years. We are the only private, family owned and operated crematory manufacture on the West Coast.

Your new Cremation Equipment is Brand New and has been fully factory assembled and tested at our plant prior to shipping to your location. We had to remove the right side control panel on the unit in order to help save you time and money installing it threw your front doors of your mortuary. Once you receive the Air Quality Permit, we will make arrangements to come out and re-install the right side control panel, open the main chamber door and put the unit into operation and start-up, train your personal and cremate some cases to insure your understand how to operate and troubleshoot your new equipment. Prior to use leaving we will "guarantee" that everything is working properly and everyone is fully trained on everything.

We want to thank you again for your giving us the opportunity to serve you and we look forward to working with you and helping you with your crematory needs throughout the future.

See you soon.....

Sincerely Appreciated,

AMERICAN CREMATORY EQUIPMENT CO.

John Raggett

Re: QLT/KISU V, Lot 7
Premises: 74-5615 Luhia Street, TMK: (3)7-4-15:22
Lease: Amended and Restated Lease dated July 1, 1996
Lessee: Community Foundation for Monterey County
Tenant: A Hui Hou Tribute Center, LLC—Use Permit Application

With reference to letter dated November 9, 2010 in regards to the above-referenced Use Permit Application which has been submitted to QLT for review and execution as Lessor; A Hui Hou Tribute Center, LLC agrees to the conditions set below as stated in proposal:

1. QLT would be amenable to executing the Application as landowner and Lessor of the subject Premises on the following conditions:

a. Lessee and Tenant must provide written certification that:

i. They each acknowledge and affirm Part III, Subsections

A.i. and A.j. of the Application, which specifically state, in pertinent part, that “particulate emissions from the crematory unit shall not exceed 20 pounds per 100 pounds of material charged,” and that for “any six (6) minute averaging period, the crematory unit shall not exhibit visible emissions of twenty (20) percent opacity or greater, except as follows: during start-up, shutdowns, or equipment breakdown, the crematory unit may exhibit visible emissions greater than twenty (20), but not exceeding sixty (60) percent opacity for a period aggregating not more than six (6) minutes in any sixty (60) minute period,” respectively;

ii. They each acknowledge and affirm that the Noncovered Source Permit, No. 0732-01-N referenced in the State Department of Health August 3, 2010 Letter, attached as Exhibit B to the Application, does allow for emission of air pollutants in a “specified manner or amount”;

iii. They each acknowledge and affirm the use restrictions under the Lease, Section 6.3 and the Design Standards and Design Criteria, Permitted Uses, Pages 2-3, which, among other things, specifically prohibits any use that emits any “odor, dust, smoke, gas, noise, vibration, radiation or other effect that has measurable nuisance qualities beyond the property line”; and

“From our Ohana to yours, where families come first”

iv. They represent and warrant that notwithstanding the visible particulate emissions disclosed in parts i and ii above, such emissions will not under any circumstances result in any odor, dust, smoke, gas, noise, vibration, radiation or other effect that has measurable nuisance qualities beyond the property line of the Premises.

With reference to letter dated November 9, 2010 in regards to the above-referenced Use Permit Application which has been submitted to QLT for review and execution as Lessor, A Hui Hou Tribute Center, LLC agrees to the conditions set below as stated in proposal:

b. Lessee and Tenant must also modify its Notice to all affected property owners, lessees and tenants, disclosing the written certification required above.

c. Lessee and Tenant must provide QLT with the revised notice, to the written certification required above, with a complete listing of the names, addresses and tax map keys of all owners, lessees (including tenants) of record of surrounding properties and space units that will receive such revised Notice pursuant to the Planning Commission requirements.

d. Lessee and Tenant must update the Application with the revised Notice, including the written certification required above, and the undated listing mentioned above.

In acknowledgement of the above the affected properties (those within 300 ft of property) that will be notified are:
