To Whom It May Concern:

As per the information provided by Planning Department staff and consideration of options for the best approach for proceeding with the above application, we are requesting to withdraw the application, which would allow for a resubmittal of a revised application without forfeiture of the filing fee. Intentions are to resubmit the application which will include a revised plan, as well as a second application for the ongoing operation of the gymnastics school located at the subject parcel.

I am requesting an extended period of time to allow for preparation and submittal of the second application for the gymnastics school, as well as the revisions to the original application for the operation of the go kart track. We are proposing to complete and submit both applications by February 15, 2012.

Thank you for your consideration of the above requests.

Sincerely,

Lori Mikkelson
Agent for the Applicant
