RE: Consolidation/Resubdivision Application No. 90-20,
TMK 3:8-1-009-03 and Consolidation/Resubdivision
Application No. 90-39, TMK 3:8-1-009-027 &
TMK 3:8-1-010-02

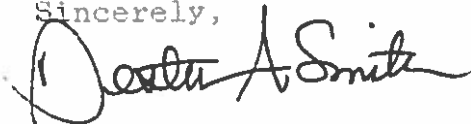

Dear Sir,

On February 21, 1991 I wrote to you requesting clarification of the full extent of a public access right-of-way on Kaawaloa Road in South Kona created by the applicant of Consolidation/Resubdivision Application No. 90-39. Said right-of way & application were approved by the Planning Department in June 1990 as Subdivision #5917.

My family desires an answer to the questions raised in my February 21st letter, as the subject of road improvements and the extent of a public right-of way on Kaawaloa Road may have direct bearing on our negotiations with the Hawaii County Planning Department and Public Works Department regarding our Consolidation/Resubdivision Application No. 90-20.

On March 18, 1991 your office wrote to me saying that the Planning Department had referred my correspondence to the Office of Corporation Counsel for review & a formal opinion. Since that letter I have not received any written response to my initial correspondence. Will you please send me a copy of the Office Of Corporation Counsel's opinion and a statement of you department's position on the right-of-way created in Subdivision #5917 as soon as is reasonably possible.

Sincerely,

Dexter A. Smith
