Dana:

The estimated cost of the driveway from the existing ranch road to the mauka boundary of the kuleana would be about \$1200.00. McCandless Ranch would use it's own equipment and employees to perform the work.

There is an existing jeep road that currently provides access to the kuleana parcel so the Applicants can proceed with permitting and building the single family home without the new driveway. This jeep road runs along the beach so it may make more sense from an environmental perspective to use the proposed driveway to could get access to the kuleana. However, there is no reason to delay a determination that the proposed single family residence is exempt from any SMA Permit requirement irrespective of any proposed action on TMK 8-6-11:3.

Dear Mr. Vitousek,

Could you please provide me the cost estimate for the proposed driveway on parcel 8-6-11:3. I understand the total cost of the project to be approximately \$250,000.

Thank you,
Dana
