Thank you for requesting our comments regarding the above subdivision.

We have the following comments:

1. The applicant must prepare and submit to us a Traffic Impact Analysis Report (TIAR) for our review and approval.
2. The developer must make a formal written application for any proposed new access or any change to existing highway access and may be charged an administrative cost as well as consideration for the purchase of access rights to our State highway. For more information about these costs, the developer should contact our Highways Division, Right-of-Way Branch at (808) 692-7345.

Very truly yours,
