Aloha Esther,

Thank you for inquiring about any concerns Ala Kahakai NHT may have as it pertains to the waterline improvement project at Keel.

Based on the maps that you sent and a previous site visit with State of Hawaii NAH staff, Count Planning, and Kamehameha representative Dale Fergustrom, and conversations with SHPD, it appears that the project will not impact lateral shoreline access in the Keel section of South Kona. We are also pleased to be informed that the project has been scaled back, eliminating a road, and utilizing base coarse to cover pipe versus excavation thus narrowing the footprint of the project and therefore not further impacting trails that are found nearby and within the project area.

Thanks again

Rick

Hi, Rick,
I've attached 4 pages and hope these will do.
If not, let me know.
Thanks for your assistance.
Esther

Good morning, Ki,
SAA 12-000769 for the waterline replacement which we received on February 24, 2012 and received your comments dated April 17, 2012 was withdrawn due to the lengthy time DLNR-State Historic Preservation Division required for their review. Kam Schools finally received the ok from SHPD and have resubmitted the same application.
Are your attached comments still relevant or would you need to update your comments? No changes were made to the original plans.
Thanks.
Esther
